ATTACK MADE ON THE VALIDITY OF IMPEACHMENT.

UNANIMOUS VOTE RECORDED

His Counsel's Objection to Permit ting Four Senators to Sit as Members Overruled.

Albany, N. Y .- Counsel for William Sulzer lost the first skirmish in a legal battle they begun at the second session of the high court of impeachment to prevent the accused executive from coming to trial. Their objections to permitting four senators to sit as members of the court were overruled.

They next attacked the validity of the impeachment with a motion to dismiss the proceedings, but failure to complete their argument when adjournment was taken until Monday precluded a decision in the matter.

Meanwhile Governor Sulzer formally conceded that he had no right to exercise the functions of chief executive pending the termination of the impeachment. This he did in a letter to Lieutenant Governor Glynn, turning over to the latter a request for the extradition of a prisoner and explaining that he had taken such action because of recent decisions of the supreme court.

Wilson Sits in Balcony.

Washington. - President Wilson sat in the balcony of a vaudeville theater recently and enjoyed the show much more than he did a week ago, when he occupied a stage box for his first sight of vaudeville. Before every time a joke was cracked the president noticed the crowd gazing at him and it spoiled his evening. This time he slipped quietly in with Dr. Grayson and a secret service man and was not recognized. He didn't wait for some pictures depicting Harry Thaw's adventures in Canada, leaving as the lights were dimmed and walking back to the White house while a crowd waited around the White house automobile outside.

Felicitates Chilean Republic.

Washington, D. The first Nebraska dairy special milk cow train to be sent throughout the state under the auspices of the state university and the Nebraska Dairymen's association started Monday for a trip covering approximately 2,000 miles, touching one-half of the counties of the state, and lasting two weeks. The special is the first attempt of the association to educate the farmers in the remote portions of the state as to the benefits to be derived from the proper feeding and care of their live stock, especially the cows, and what constitutes a good type of stock. The equipment for the train is being furnished by the Northwestern railroad and the exhibits are prepared and furnished by the dairy department of the state university, under the direction of Prof. J. H. Frandson. The train will consist of six cars, one car of which will be filled with some of the best specimens of the Holstein, Jersey, Guernsey, Ayrshire and milking Shorthorns from the barns of the state farm.

Drouth was Costly.

The dry weather will cost the state considerable money, according to Henry Gerdees, of the board of control. As an example, he said the state has 265 shoats at the Kearney industrial school for boys and there is not a grain of corn on the land of the institution to feed them. All the corn raised there has been cut up and put into a silo. There are 150 head of cattle at the institution and some of the stock must be disposed of or the state must buy ommunicated to him by long distance low priced corn.
