Separor Deitrich has been indicted on six different counts before the Oh time, if you will, leap back, come receed, tedral grand jury on a charge of regarding the appointment of a post master at Hastings. He was charged with having appointed Fisher as postmaster in consideration of \$13,-000 to be paid by the latter. He said that Mr. Dietrich had contracted with the government And then there is Hand, be must feel very officials to furnish one of his own buildings in Hastings for a post The state has gone wrong, of votes we now office at a reduced rent. This was done in order to secure a certain location, there being other buildings offered at low rents in other parts of the city. Then it is said that Mr. Fisher agreed to make up the difference in rent, \$800.00, and it appears had made some payments. Then there appeared to be a doubt as to whether the transaction was not in violation with the fedral laws and rules and Mr. Dietrich promptly refunded this rent money. The other \$500.00 was paid by Mr. Fisher for post office fixtures from the G. A. R. building where the post office had formerly been located. It seems that Mr. Detrich, in his contract with the government officials, had not been claimed and have been five years not agreed to furnish the fixtures or more in the hands of the clerk of the Geo E Benschoter...... along with the building as is the rule in cities the size of Hastings, and so the new P.
