> According to the constitution, it is not true that they can. But when membership in either house of consible for a court to determine the membership of those bodies, it would every law of the land. It would also be possible to disorganize the very existence of the organization of those bodies. It would be possible to remove from office any member of those bodies and place any contestant in the office, whom they saw fit. But these are not questions belonging to the Congress possesses all these rights and from that body there is no appeal. The senate possesses the right to question the number of votes which any of its members may have received in the respective legislatures; also the process of taking those votes; the returns, and to question into every detail concerning their election. But these questions belong to those bodies exclusively, and concerning them no

court has the right to interpose. Whenever the courts undertake to determine the beginning of, or the ending of, a term of the senate and house of representatives, it infringes on the question which belongs only to those bodies to decide. If Mr. Dietrich is to be arraigned as a United States senator, he must be arraigned before the senate. But no penalty can be attached by the senate, except a removal from office and a hindrance from holding any office under the

United States. The courts have no right to say that a senator cannot hold any office under the United States. Thus it is seen that the power of the court and the lower of the senate does not overlap, or their powers do not conflict. The senate may impeach, on the charges of "treason, bribery, or other high crimes, and misdemeanors.' But it cannot impose a penalty except those related in the constitution, over which the courts cannot exercise authority. But the courts may, after impeachment, indict, and the person so convicted by the senate is "subject to trial, judgment, and punishment, according to law."

The question of being placed in case, Mr. Dietrich has not yet been in jeopardy, because he has recourse to the courts that his case has been in errer.

If Mr. Dietrich shall be indicted for any charge at all by the courts, he must be indicted without regard to the office which he holds. The law under which he was indicted, was a usurpation of power on the part of the congress which made that law, because they were giving away a power which belonged to all future congresses, and were surrendering a part of the constitution. One congress cannot legislate for another congress relating to those questions which belong to the existing congress. In this law, the past congress has merged its own rights into that of the judiciary. Now, if there is any danger which imperils this government, it is the act of merging the powers of the three respective branches. The founders of this republic were wise indeed. Where the powers of the senate as a court end, the powers of the judiciary begin. Hence the senate cannot apply penalties in case of impeachment, but that is left for the court to do. It appears to me, that the case of

Mr. Dietrich was an error from beginning to end. But in conclusion I might recall an assertion of the court which is evident misconstruction. The court says, "Under the laws of the United States, there are no crimes, save those that are declared by congress. By the common law of Engmost of our states, offenses known and recognized at common law have become offenses here. But under the distinct and separate government of the United Sttaes, as contradistinguished from state government, there is no common law crime; there are none save those that are prescribed by congress." Now, if there was ever an assertion that can be disproved, are none save those that are prescribbefore there was a congress or before that body ever convened. The constitution establishes or prescribes "treason, bribery, or other high crimes and misdemeanors," and provides a penalty so far as official capacity may be concerned, but further than that, the senate cannot impose penalty. The constitution goes so far as to define the very acts of treason. "Treason against the United States shall consist only in levying war against them, or in adhering to their enemies; giving meaning before, and "scribed"

"A few years ago I caught a severe cold, which resulted in chronic bronchitis and catarrh. Our family physician prescribed medicines which gave temporary relief only. I began taking Peruna and improved at once. Two bottles cured me. I recommend Peruna to all sufferers, and am most grateful to you for your valuble medicine."-Miss Rose Gordon.

Washington, D. C., 609 H street, N. W. Dear Dr. Hartman:-"I used to think that the doctors knew all about our aches and pains and were the proper ones to consult when sick, but since I have been sick myself I certainly had good reason to change my mind. During the winter I caught a heavy cold, which developed into catarrh of the bronchial tubes and an inflamed condition of the respiratory organs. The doctors were afraid that pneumonia would set in and prescribed pills, powders and packs until I sickened of the whole thing, as I did not improve. One of the ladies in the Home had a bottle of Peruna and she advised me to try that. Shortly after I began using it I felt that I had found the right medicine,

easily and pleasantly to perfect health. While my stomach was very delicate, Peruna did not nauseate me in the least, but gave me a good appetite, and I wish to express my gratitude to you for restored health."-Miss Rosalie Von Struenning.

Naturalizing a Russian.

England is always glad to get another citizen, but sometimes she goes about it in a strange manner, according to the Springfield Republican. A sailor recently deserted from a Rus sian battleship and joined an English crew on a farawa, island. He told them that he was tired of the rule of the czar and wanted to become an English citizen. They were at a loss how to naturalize him, but finally each threw a bucket of water on him and so washed off the Russian.
