Mr. and Mrs. W. R. At the beginning of this glad New Year, we want to extend our warmest thanks to one and all who have the past year given us local news by phone and otherwise, thereby helping us make the paper better by their thoughtful kindness. Will they please use the phones either at the office or residence at any time to give us the news of the coming year, and lots of it. You will? Thanks.
On Friday evening, Dec. 30th, the members of the Unity Club and their husbands and sweethearts met at the beautiful new home of Mr and Mrs. G. S. Leininger, where a good program was given, consisting of vocal and instrumental music, recitations and the paper on "Habits," by Mrs. J. P. Leininger, which latter deserves more praise than our pen can give at this time. At the close of the program, all took part in games, social talk and lastly, refreshments were served such as Loup City ladies are noted for, and none compare. It is such gatherings as this that help brighten our lives and seal the bond of brotherhood closer. May the ladies of the Unity Club give several such evenings during the winter. The gentlemen went home with a better opinion of the club and women in general and with the secret hope that they might be remembered again in the near future. Unity club is a wonderful and very much appreciated and it is a regret that it means to be retained with nothing but success.

That race suicide has not extended its skeleton embrace within the confines of Sherman county, we have only to point with pride to the fact that Dr. Main alone attended the birth of twenty-six bright little cherubs last year. Sherman county is all right.

Monday night was one long to be remembered by Council No. 136, Mystic Legion and for which all return thanks to Deputy Dubry. During the session several new members were initiated and at the close a sumptuous oyster supper was served by Deputy Dubry, not only to the members, but a large number of invited guests, after which dancing was indulged in till a late hour.
You can always rest assured the local newspaper will do more towards building up home interests than home interests do towards building up their local papers. The more the merchants patronize their home papers the more strenuously do the home papers work to advance the merchants' interests. Let the home papers have a derth of support from their business men, and you deprive them of incentive to work for the upbuilding of home interests. Here is a thought for the Commercial Club.
With Horace Greeley's maxim, "Go west, young man, and grow up with the country," ringing in his ears, Frank Burligh, the editor's son, leaves tomorrow morning on the U. P. towards the setting sun. The editor himself did the same act when he was still in his teens, winding up on the golden shores of California, and getting all kinds of experience, and we rather think the idea a good one for boys as they grow up to get a little of such wholesome lessons as are inculcated by the "Go it alone" idea.
Miss Ernestine Odendahl entertained the parents of her pupils in music by giving a Recital at her home, Saturday evening, Dec. 31st, in which nearly all the members of the class took part, some being detained at home on account of sickness. The duets given were especially good and the entire program was enjoyed by all. After the program was finished, delightful refreshments were served and then a royal good time was had playing games till the bells toll of the arrival of the Happy New Year, when all wished their different homes, conscious of an evening most delightfully passed.
A newspaper if a correct index of a town. Let papers teem with big, glowing, attractive advs. of home business men, and the public at once conclude the town is a live one and naturally gravitate toward that business mart. On the other hand, let the business men withhold their patronage and the home papers appear without the diversified interests of the town well represented, and the readers of the papers lose interest in that town as a competitive point, naturally concluding the merchants have a community of interest and uniform prices that brook no competition. This is a fact of the same kind, but it is a regret that it means to be retained with nothing but success.

Don't forget Cording's sale.

We have received a letter from Mr. C. H. Conklin, at Correctionville, Iowa, desiring us to inform the public that he will return to Loup City, with his family as soon as spring opens and put down a cement sidewalk again. He also has a first set of cement tile moulds for making different sized tiling, and has just purchased the best cement building block machinery out for making any kind of block and of any size up to 24 inches wide and 5 feet in length. He informs us that he intends making a permanent business of doing cement work, and desires our people to remember him when in need of any such work.
Scarcely a week passes that THE NORTHWESTERN does not turn down advertising patronage from out of town. A week or so since, we turned down a goodly lay, adv. from the Nebraska Clothing Store. Last week we refused a big grocery adv. from a foreign house. We have on our desk at present a big advertising proposition from a prominent business house. We have a letter from a man looking for a location in the boot and shoe business. That our business men appreciate our refusing such advertising propositions and standing up for our home business interests, is a glance over our advertising columns will amply testify.

Don't forget Cording's sale.

We understand there is to be another barber shop in the old building vacated by the Draper Saddlery company. With the one to be opened in the new bank building will give us four shaving shops out of which the public ought to be first "next" after this.

C. W. Fredrick who came here from St. Paul a few weeks ago and opened a jewelry store in Cooper's grocery, has purchased the jewelry business of J. F. Jeffords in St. Paul, and returned to that city.
