 Shall Loup City have more light? W. T. Chase has asked the city council for a ten year franchise, for an Acetylene gas plant. He estimates the probable cost of ten lights, which he requires of the city, if they grant the franchise, at about \$630, besides the cost of putting in the same. There is an element in favor of the city owning its own lighting plant, while another element favors a franchise. Think it over. We will give some figures next week.
