UNIVERSITY GIVES TEACHERS TO STATE

Thirty-two Per Cent of High School Instructors Were U. of N. Graduates

A very interesting study has been made of the preparation and experience of the teachers of academic subjects in the high schools of the state. Last year there were 1,324 instructors of high school work, in the 225 schools accredited to the University. Of these 62 per cent were graduates of four-year higher institutions, 32 per cent being graduates of this University. Twelve per cent were graduates of a two-year course with extra study and 22 per cent had completed only the two-year course. Only 4 per cent had less than two years of preparation.

Most of these teachers had taught several years, in fact, only a third of all the Nebraska high school teachers had taught less than four years.

This is a very encouraging report and shows how well trained the state teachers are for their high school work, in the opinion of University professors.

WERNER WON THE 440 IN GOOD TIME FOR FRIGID WEATHER

The 440-yard dash was the only race to be run last night in the track trials, because of the frigid atmosphere. Considering that the race was,

for the greater part, run against the wind, the time of 55:2 was very good. Werner, who, a few weeks ago, won the hundred yard dash, was the winner again last night, with Bryans a close second. Dally, who collapsed at the finish, was third.
