**Union Literary Society
Uncovers Service Flag**

The Union Society held its regular weekly meeting Friday evening in the Temple. A patriotic program was first given, after which old-fashioned games were played. During the program the Union Service flag with 28 stars was uncovered. Mr. Pollard, '93, gave a very interesting account of college life 25 years ago. In spite of the cold, a large crowd was present.

**Delian Men Give
Interesting Program**

A very clever and interesting program was given by the boys at the regular meeting of the Delian Literary society. The following program was given:
Pantomime—"Wanted a Wife"
Dialogue—"Dr. Primrose and Don Buttercup"—Harold Boyce and Paul West.
Reading—Glenn Snapp.
A Farce—"The Editor."
Reading—John C. Higgins.
Snowball Minstrels.

**Kearney Club Holds
Interesting Meeting**

A large and representative company of alumni and former students of the Kearney State Normal School met on Saturday evening in Faculty hall at the Temple. The evening was very enjoyably spent in playing games and relating reminiscences of days at K. S. N. S. During the business meeting plans were discussed for having the club represented in the Cornhusker. At an hour somewhat later than "Dorm" rules allow, the club adjourned, having accepted the invitation of Messrs. Chung and Richmond to meet with them at the next regular meeting.

ACHIEVEMENT

Twenty-five years ago the General Electric Company was founded. It has set free the spirit of research. Since then, electricity has sent its thrill through the whole structure of life. It has given tangible form to invention, in apparatus of infinite precision and gigantic power. Eager to turn wheels, to lift and carry, to banish dark, to gather heat, to hurl voices and thoughts across space, to give the world new tools for its work—electricity has bent to man's will. And it has gone forth, co-operating with every industry, to command this unseen, force and fetch it far to serve all people. By the achievements which this company has already recorded may best be judged the greater ends its future shall attain, the deeper mysteries it yet shall solve in electrifying more and more of the world's work.
