Other houses had not reported Thursday night, although it is probable that almost all of the twenty-two organized at the time the Student council representatives spoke to them.

Advantages Shown. "Our primary purpose in this work is to get the unaffiliated students to organize wherever possible for participation in the various extra-curricular activities and in the intramural program."

Edwin Faulkner, president of the Student council stated at a meeting at which speakers were instructed Thursday afternoon. "At the present time the barbs do not to a very great degree participate in activities," he continued. "There is a great field open to them if they do organize. By not participating, they help to bring about a stagnation and paralysis in activities. If they organize they will change this situation and help to balance an unbalanced political situation."

Letters were sent to all rooming houses where five or more students are living, explaining the situation to them and asking them to consider organization. The work is being carried on by the reassignment committee appointed by the student council some time ago.

Red Flannels and Bed Warmers

have gone . . .

TIME WAS when the winter season brought out the old red flannels, the bed warmers—and a switch from fresh, crisp foods to hot, heavy dishes.

We've said good-bye to flannels and warming pans—thanks to modern steam-heated homes, closed cars and well-heated schools. However, a lot of folks still think that cool weather makes it necessary to eat heavy foods.

But a change is taking place here too. More people every day are enjoying crisp, ready-to-eat cereals like Kellogg's Corn Flakes. And what a delightful difference it makes! Meals as crisp as summer itself! Delicious and healthful.

Try Kellogg's tomorrow for breakfast. Enjoy them with milk or cream and sliced bananas. Splendid for a bedtime snack. These crunchy flakes are so easy to digest they encourage restful sleep.

Get your favorite eating place to brighten the menu with Kellogg's.
