

VARSITY TEAMS MATCH PLAYS IN SCORELESS TILT

Reds and Whites Engage in Third Spring Practice Grid Duel.

OFFENSIVE LOOKS POOR

First Attempt at Double Wingback Formations Not Effective.

BY JOE MILLER.

Fast charging lines and tight defensive play featured a scoreless gridiron battle Saturday afternoon as two varsity outfits, Reds and Whites, met in the third practice tilt of the spring season at the stadium.

The game, marking the first demonstration during the spring drills of the double wingback system, found the Husker candidates about as effective as a cripple playing hop scotch offensively, meanwhile displaying defensive talent of the first order.

The nearest approach to a touchdown came in the closing moments of the first half, when the Whites recovered a Red fumble on the twenty-yard stripe after John Roby had punted over the goal line. Hub Boswell and Chief Bauer reeled off a first down in two plays to plant the leather ten yards from the goal. Two thrusts at the line by Bauer gained three yards, and on the fourth down Bauer attempted a pass to Boswell which the Ravens halfback had no chance to retrieve. The half ended with the Reds in possession on their own five yard marker.

Reds Almost Score.

The Reds previously had pushed the ball within the twenty yard zone late in the first quarter on a twelve yard sweep around end by Jack Miller and some dandy reverses outside tackle by Fred Overstreet. Steve Hokuf then tossed a pass to Lee Penney, who, surrounded by tacklers, flipped laterally to Jim Milne. The gain was good for about nine yards. The Red attack fizzled at this point, the crimson jerseys losing the pigskin on downs.

Two new teams took the field at the start of the second half, the Red lineup including Wolcott and Joy, ends; Uptegrove and Schlue-ter, tackles; Justice and DeBrown, guards; Kerakedes, center, and White, Parsons, Schmidt and Fahrbruch forming the backfield. The Whites had Copple and Weir, ends; Green and Hladky, tackles; Mehring and Peek, guards; Prestegard, center; Mathis, quarter. Murray and Eldridge at halfbacks and Skewes at tailback.

Frequent penalties for offside marred play in the third quarter, with the Whites showing greater ground gaining punch. Ken White looked good for the Reds in this period, while Fred Murray was

Tryouts Announced For Baseball Team

All Arts and Science men who wish to try out for baseball are requested by Fred Oetken, organizer, to appear Monday, 4 p. m., at the dressing room of the Coliseum. There will be a workout every day thereafter at 4 p. m.

getting the most yardage of the White ball carriers.

Fahrbruch Outstanding.

Fahrbruch stood out for the Reds in the final quarter session, which saw Coach Bible juggling his teams in an effort to find a combination that would click. The Crete boy went down the sidelines for twelve yards on one occasion and came through on several off tackle slants.

Roby, Boswell, Bauer and Murray were the big threats for the Whites, while Masterson, Miller, Hokuf, Fahrbruch and Overstreet showed up well in the Red backfield.

"The boys didn't know their assignments," Coach Dana Bible emphasized following the drill. "We will have our last game Friday afternoon when both the punt formation and double wingback systems will be used.

"I'm asking them to shoot the works then," he concluded.

Starting lineup:
Reds—Milne, Scholte, Bishop, Meier, DeBus, Uptegrove, Penney, Masterson, Overstreet, Miller, Hokuf (C).
Whites—Armstrong, Strogan, Swanson, (C) Key, Bunka, McPherson, Roby, Mathis, Bauer, Boswell, Murray.
Officials: Earl Johnson, referee; John Waldorf, umpire; Joe Lehman, headlinesman.

SCHEDULE TRACK MEETS

Two Dual Events Planned; Oklahoma Team to Come Here May 6.

University of Nebraska track team will meet the University of Oklahoma in a dual meet May 6 at the Memorial Stadium track. It was announced Friday by the university athletic department.

The Huskers will meet the University of Kansas at Lawrence on either April 16 or May 10. Herb Gish, director of athletics, declared. Nebraska officials prefer the latter date.

REORGANIZATION MADE OF MUSIC SCHOOL FACULTY

Under the new organization all examinations for advanced credit will be in the hands of a committee on advanced standing composed of members of the faculty with the director of the school of music as chairman.

Faculty To Be Independent.

Offices and studios will be provided in the school of music building at Eleventh and R streets for all members of the faculty. Members of the new faculty will not be connected with other musical conservatories or schools, according to the announcement. Teachers of musical theory will receive salaries from the university as formerly, while teachers of applied music will be upon a fee basis, the same as under the present organization.

Under this reorganization the school of music will become a branch of the school of fine arts, but with an independent director and a special faculty and with the courses of study leading to the degrees of bachelor of music and bachelor of fine arts in music. The personnel of the faculty is not yet determined in full, but will be announced later, Chancellor Burnett said.

YUTAN STUDENTS VISIT.

A group of high school students from Yutan, Nebr., visited the university campus last week.

RAY RICHARDS, a former All-American tackle with the Cornhuskers and now a professional wrestler was an interested spectator at the spring practice game Saturday.

Richards has been training assiduously and now weighs 199 pounds, about twelve under his usual weight. He feels that he has gained a lot more speed by removing this poundage, although those extra pounds have their advantage when he takes on the more beefy brethren in his trade. The Pawnee City boy has been angling for a match with Joe Savoldi, one time Notre Dame grid star, but to date has been getting nowhere fast. Richards intimated that Savoldi wasn't falling all over himself to arrange the bout. On the other hand, "Rich" says he is eager to go up against the Italian husky any time and anywhere.

GRIDGRAPHS: John Roby was playing a real game of football Saturday.

Roby was one good reason why so few passes were completed, as he was rushing the passer constantly. His defensive work was outstanding, few gains being made around his end. As an indication of just how fast is this fellow Roby, the Nelson athlete took out after a ball lugger who had started out around the opposite end on a reserve play. Roby nailed his man for a loss. John also did the punting for his team.

Dave Fowler was another end who showed up Saturday as a blue ribbon performer. The former Lincoln high grizzer, elevated only last week to the varsity red squad was breaking up opponents' plays continually. He is a freshman.

Hub Boswell impresses an observer by the way he catches a pass. Boswell's motto is: "Get the first." He certainly does that very thing. A wobbly aerial intended for Boswell developed into a jumping contest between the Ravens half and two opponents, but Hub got it.

ROLAND LOCKE thinks that the stop watches now employed to time various track events are inaccurate.

He says that Percy Beard, who set a new world's record of 14.2 seconds in the 120 yard hurdles here last July in the A. A. U. meet was running no faster than 14.4 seconds, whereas Locke clocked him in 14.1.

In other words, the former Nebraska sprint star believes that the current track sensations in the running events are no faster than the runners of a few seasons back. The clocks, according to Locke, are off.

While "Gipper" may be right, it does seem queer that in many races the officials all report the same time. If they are as inaccurate as Locke claims, then they would likely be greater discrepancy.

The feat of Ben Eastman of Stanford who ran the 440 in the amazing time of 46.4 seconds, a full second lower than the world's record set by Ted Meredith in 1916, rather disproves Locke's contentions. Another individual who has slashed the accepted time standards is Gene Venzke, who cut two full seconds from the indoor mile mark and bettered Paavo Nurmi's outdoor record in compe-

Girls Plan Golf Club

Arrangements Made to Hold Tournament to Qualify for Membership.

Girls interested in the formation of the new women's golf club met Friday noon in the W. A. A. club rooms to discuss plans for this semester. Anne Bunting, head of the group, was in charge of the meeting.

Qualifying rounds will be played off on the Antelope course the week of and the week after spring vacation. The twelve girls with the lowest scores in these rounds will be chosen for membership in the club.

Four practice periods are scheduled for this week. They will be held in the golf rooms of the gymnasium, Monday and Friday at 1 and Tuesday and Friday at 5 o'clock. Tuesday evening Miss Clara Rausch of the physical education faculty will give the girls technical golf instruction.

NEWLY SELECTED AGENTS OF BARB GROUPS TO MEET

(Continued from Page 1.)

and chairman of the faction realignment committee which is sponsoring the movement.

"At the meeting Tuesday," said Faulkner, "we want to complete the preliminary steps toward resolving the barb groups into political bodies. We suggest that the representatives form themselves into a permanent organization similar to the Interfraternity council. After the organization of the representatives is formed, each member will be the duly constituted envoy of his respective group."

Faulkner expressed the idea which the faction realignment committee has had in mind as being that this organization should be in a position to take an active part in the spring elections which will be held about the middle of May. If the barbs have succeeded in gaining sufficient strength by that time, he indicated, the original problem which the faction realignment committee was called upon to meet, namely to even up will chances in elections between the factions, may be solved.

"Just exactly how the situation will work out is of course still indefinite," Faulkner explained. "It will be up to the representatives to decide upon their future course, and it will be necessary for them to secure recognition from the Student Council as a permanent campus organization."

A report from the faction realignment committee will be presented at a special meeting of the student council called for Wednesday afternoon at 5 o'clock.

The representatives listed below have been named by their respective groups to meet with the faction realignment committee Tuesday night. A few houses have not as yet reported their selections.

- 1121 Q. Corwin Hulbert.
- 1504 S. Bob Morley.
- 321 No. 17. Dave Franzen.
- 1423 U. George Bauer.
- 1609 P. J. E. Petr.
- 1516 S. L. J. Gier, Hepler, Kas.
- 1414 S. Willis E. Thayer, Omaha.
- 1431 U. Edmund Dudek, Clarkston.
- 1820 U. Dick Mansfield.
- 1535 R. Chester Rogers, Martell.
- 1507 R. Ralph Illingworth, Fairfield.
- 306 No. 17. Glenn Yost, Sumner.
- 1643 Q. Orville Walla, Morse Bluff.
- 1516 Q. Wendell Cox, Horton, Kas.
- 1446 Q. Harold Wilson, Irwin, Ia.
- 1437 Q. Eugene Allen, Sioux City, Ia.

DEBATE NOW HAS ITS PLACE ON LIST OF INTRAMURALS

(Continued from Page 1.)

robin debate, and that with their aid the plan might become a reality.

Walter Huber, president of Delta Sigma Rho, expressed the belief that the intramural department would in all probability select some suitable award as a trophy for the winning team.

The debates are to be round robin affairs, with each house meeting every other house. The team will be composed of two men that will be given eight minutes in main speech and four minutes in rebuttal. Each house will debate both sides of the question, which may be done by having an affirmative and a negative team, or by having one team take both sides of the issue.

DR. FORDYCE GIVES TALK.

Dr. Charles Fordyce, chairman of the department of educational measurements and research, addressed a group of young men at Lincoln high school Tuesday, on the subject, "How One May Find the Right Vocation."

BOXERS TO ENTER TRIALS

Nine Members of Nebraska Squad to Compete in A.A.U. Tryouts.

Nine members of Rudy Vogelger's University of Nebraska boxing squad will compete in the annual midwest A. A. U. tryouts at Omaha April 8.

The following men will enter the preliminaries: Leland Copple, 175; Bobby Kinoshita, 113; Glen Heady, 118; Les Sellentin, 160; R. Flatten, 160; Bernard Malcolm, 147; Evan Moses, 135; Howard Houston, 147; and Ed Hirst, 160.

Guy Scholl, 25, formerly consultant geologist at Wichita Falls, Tex., visited the department of geology offices last week.

FACTORS TO BE CONSIDERED IN SELECTING A VOCATION.

(Continued from Page 1.)

criticism brings it into accordance with the modern ideal of conduct. Nothing has been said about selecting a vocation with the end in view of making a worthwhile contribution to the work. It has been assumed that the thoughtful person will at once appreciate that no true happiness can be secured by engaging in pursuits that are contrary to the best interests of society.

But the materialistic person again protests, "Money talks." It must be admitted that there are people who can measure happiness or success only in terms of what they can see or touch. They have no capacity for appropriation of the feeling of satisfaction derived from the accomplishment of something substantial. They cannot understand that there is a distinct pleasure to be had from services to society.

They do not know that the greatest happiness is to be had from money when that money is received in return for a sincere effort to better the world. Such persons must be left to wrest what happiness they can from material possessions, never enjoying the full measure of happiness life has to offer them.

Happiness Better Than Money.

That happiness may, however, be enjoyed by persons of higher ideals and finer sensibilities. Thru a consideration of the factors suggested above such persons may select a vocation affording them a maximum return for their effort. This vocation may or may not be the one bringing them the largest possible pay check but it will unquestionably bring them the fullest possible enjoyment of life. They will have a kind of happiness that cannot be derived from attempts to satisfy a desire for material possessions—a happiness that no amount of money could buy for them.

The person who protests that a given vocation "has no money in it" may be justified, but only if he means happiness when he says money. If he has reference to financial returns and material objects only, then he is bound to consider the wrong factors in the selection of a vocation. The factors to be considered in the selection of a vocation are those concerned with the accomplishment of the greatest permanent good for the largest number of people. Due consideration of these factors will bring maximum happiness to the person making the selection, but it will not be a happiness which can be evaluated in financial terms.

DR. WILLIAMS WILL DESCRIBE POTTERIES

(Continued from Page 1.)

versity, has conducted summer trips planned for the main purpose of discovering potteries of

old Indian tribes, and many different shapes of dishes and bowls have been found which give direct information concerning their living and customs. Nearly all of the present day information of the early Babylonian and Assyrian civilizations was gained thru the study of ceramics. Dr. Williams explained.

Dr. Williams' talk will be illustrated by demonstrations of pottery, and pottery shapes made by students taking his course in ceramics in the university.

The pottery exhibition which is now placed in the second floor corridor of Morrill hall, will also be open to the public Sunday afternoon. This exhibition is circulated by the American Federation of Arts and contains some of the best known pottery of the United States.
