 Porter Sherman, of Kansas City, delivered an able address before the Political Economy Club, Thursday evening on the subject "Neither Capitalism nor Communism, a Plea for the Middle Class." Mr. Sherman is a man, well able to cope with this difficult subject. He was a student at Leipzig with Professors Taylor and Fling. The speaker showed that in the light of history, we should avoid both the extremes, and seek the golden mean where the people, the great middle class should control the government.

The University Conservatory of Music

Is ready to receive pupils of any degree of advancement.

IN ALL BRANCHES OF MUSIC.

With a full corps of instructors and the advantages extended by the University, it is enabled to offer to all a musical education not equaled elsewhere in the West, and far superior to the training which it is possible to obtain from private instruction.

Students are cordially invited to visit the new building, and inform themselves of all the privileges offered.

A SURGICAL FEAT.

A Man loses One-Third of His Left Under Jaw—Recovers Without Deformity.

Mr. A. C. Hamilton, a carpenter who was suffering from Briggs' disease on the 2d of July, 1894, came eighty miles from the west to get skilled treatment. He was advised by two doctors to consult Dr. A. P. Burrows 1208 O street, who has practiced surgery thirty-seven years.

When Mr. Hamilton entered the doctors office, he had to be supported by two persons. His face on the left side was enormously swollen. On the inside it was crowding against the root of the tongue so that it was with difficulty that he could speak or swallow. He was very weak and sallow, and had the appearance of one in the second stages of consumption.

He had picked out all the molars from his jaw with his fingers, and when the gums were opened with the lancet an ounce of puss was discharged. There were three curious ulcers where the probe could be passed into the bone one inch. The greatest care was taken to prevent these ulcers from opening on the outside of the face.

After Dr. Burrows had removed the left third of the under jaw, a week later, Mr. Hamilton began to improve immediately, though having slight relapses from time to time. A few days later two small pieces of dead bone were removed. About this time the disease commenced on the right side above and below, forming a dark red ring around the neck of the teeth.

An exudation of puss which commenced from between the gum and teeth, was promptly arrested by the application of local remedies.

From this time on his recovery was rapid and on the 15th of last August he was discharged from the doctor's care. Mr. Hamilton is now at work in College View and enjoying good health. No deformity to the face resulted from the operation as was feared.

Had he applied early for treatment he would have saved \$150 from loss of time. The disease commenced early last May with pain and soreness of the teeth. It appears that the physicians which he consulted supposed he had a cancer and passed him along the line as they generally do. Fatal cases!

The Capital Hotel barber shop has reduced the price of shaving to ten cents.

Will Reach 1,500.

An estimate made by Miss Tuttle Tuesday afternoon of the number which had registered up to that time places the enrollment at 1,235. This does not include the members of the law school and many pupils of the Conservatory of music. Indications point to an enrollment of 1,500 within the next few weeks.
