The first consignment of tree seeds have been received by the horticultural department. Several different kinds of forest trees will be planted on the state farm this year. Six acres have already been prepared for the experimental planting in the spring. One half of this ground has been subsoiled and the other half plowed in the ordinary way. This is to test the value of subsoiling.

A committee from the literary societies of one university asked the regents at their last meeting for a location on the campus on which a society hall should be erected. The societies ask only for the ground, as they expect to put up the building at their own expense. The regents appeared favorably disposed towards this proposal, although no definite action was taken.
