The Nebraskan will be sent to any address upon receipt of the subscription price, which is one dollar a year.

Contributions are solicited from all. News items such as locals, personals, reports of meetings, etc., are especially desired. The Nebraskan will be glad to print any contribution relative to a general university subject, but the name must accompany all such.

Address all communication to the Nebraskan, University of Nebraska.

Don't miss the Grinnell game Saturday.

The cadet appointments have caused some, few, small complainings. But such were to be expected. Nothing is so perfect that some one is not disappointed in it. And then, too, of course, not all deserving soldiers can be made ranking captains.

It is not only that you will see a good game, for Grinnell has a strong team, but the boys need and deserve encouragement. You can show by your presence that you appreciate a winning team. Your 50 cents will help make up the \$475 which are needed.

Tomorrow a new building will be dedicated and a holiday has been granted that students and faculty may commemorate the event. And it is well. The University is growing so rapidly and the students are so busy that otherwise some might not have known at all that, by the generosity of the legislature, another part had been added to the quadrangle, which is now becoming a reality. This new building and the schools of manual training which will be housed in it, are simply factors, which indicate the rapid advancement of Nebraska University. In a short time we will need more buildings, in fact we should have more now, to keep fully up with rapid growth in numbers and in quality and quantity of work done.

The Varsity eleven deserves congratulations on its success thus far this season. It has only been scored against by two teams, Ames and Missouri, and altogether only three touchdowns are recorded against it. Several of the individual players, too, deserve special credit. Captain McFord has shown good judgment in using his men and his goal kicking has been extraordinary. Benedict has played his position at half to the satisfaction of everyone. In fact the credit for a large share of the ground gained in all the games is due to him. He plays a fast, hard game and is always ready to take the ball. Williams, Irwin, Pillsbury and Stringer have all done good work. What the team seems to lack most of all is endurance, and that more hard practice will get. The coach ought to see that this defect is removed before the Kansas game.

Max Westerman, financial secretary of the Athletic Board, makes the following statement of the condition of the treasury. It shows a deficit of \$487.68, which must be made up in the games with Grinnell and Drake, which possibly a slight profit on the Thanksgiving game at Omaha.

A vast majority of the students have not yet attended a single game as is evident from the receipts, and only a very few of the faculty have been seen at the games. This is all wrong. If every one connected with the University would attend just one game there would be money to spare. Certainly there is no one who cannot spend 50 cents for the sake of his University and its foot ball team. The team has not lost a single game and in five games has only had 16 points scored against it. Against other teams it has scored 208 points. Certainly it deserves support and encouragement. Let everyone turn out at the Grinnell game, wipe out the debt and cheer a winning team.

The secretary's statement is as follows:

ALUMNI NOTES.

A. L. Kiehl, '95, has been elected principal of the Nebraska City High school.

A. J. McLaughlin, '88, for several years professor of biography in Throop polytechnic, Pasadena, Cal., now occupies the chair of agricultural science in the University of Arizona at Phoenix.

S. A. Turrell, '96, taught the exercises the past year in the Waxhaeche Institute, Texas. He is now instructor in modern languages in Henry college, Texas. As a thesis for the master's degree, he is preparing a christomathy with vocabulary of old French literature. He expects to return in the spring to take his degree.

Professor of Botany in South Dakota college, Dr. Alton Saunders, '93, writes that he is in receipt of advance sheets of his new book upon the sea weeds of the Pacific coast. It is published by the California academy of sciences, and contains thirty large plates. The finest and have ever appeared upon the subject in this vicinity.

Allen S. Eling, '94, for several years principal of the Nebraska City school, has been elected superintendent of schools in the same place. While this promotion comes as a matter of course in recognition of his work in the high school, it is pleasant to know that the school system so conscientiously elaborated by his predecessor is left in the hands of a man both competent and scholarly.

A. E. Yont, '96, the greatest running back that ever played on the Varsity, has returned to Worcester, Mass., after spending several weeks at his home in Brock, and in Lincoln. Yont is the same lover of foot ball as of old. He insists upon the capability of western "material" and believes that our future prestige in foot ball is only conditioned by the proper development of men, and of athletics. In the case of our own eleven, he regards the almost utter lack of alumni coaching as a serious drawback to rapid progress in raising the standard of our playing.

ATHLETICS.

Dr. Hastings has sent a letter to twenty-four high schools of the state with a view toward unifying state athletics.

If organizations can be satisfactorily made the plan is to hold an interstate scholastic league meet in connection with the state inter collegiate meet. Replies to this letter have already been received from Omaha high school, Beatrice, Grand Island H. S., North Platte H. S., Wymore H. S., and Lincoln. All favorable to the plans proposed.

The committee on organization and constitution consist of George C. Sneed, Lincoln, H. S.; Nathan Bernstein, Omaha H. S.; R. D. Overholtz, superintendent Ashland school.

A meeting of representatives from interested schools will be held during Christmas vacation for purposes of effecting an organization.

Men registered for physical training who have not yet been to classes will bear in mind that they have already exhausted one-half of the cuts allowed. Another week of absence will insure an incomplete at the end of the semester.

Basket ball is being practiced almost daily. The new material is excellent.

W. E. Anderson, not satisfied with his excellent record as guard, is working forward and is making a fine showing.

Story is playing well in his old place as forward. Walker and Griffith are the most promising candidates against these men.

There is a great struggle for center. Moore and Yoder are again rivals for the place. Cortelyou Swallow and others are promising candidates.

R. D. Anderson means to hold down his position as guard with his customary nerve. For the other guard on the first team there is plenty of good material but prophesy is not in place.

Lemar should make a strong showing from experience acquired in previous years.

The greatest need of the basket ball team is men who will take the trouble to become trained officials. They will be in demand for games of the league but where they will get in their most valuable work is in close rulings of practice games. We need six or eight men who do not play but are willing to work for the good of the team.

League games at Doane and Wesleyan will probably be scheduled for the middle of November.

Attention, Cadets.

We make a fine TAILOR MADE uniform, with a TRY-ON before finishing, that the fit may be satisfactory. The past two years we have made the cadet uniforms, with the exception of a few who preferred to go to other dealers, as the students have always been privileged to place their orders with ANY FIRM, regardless of any recommendations that had been made. Our order book for the past two years, with but few exceptions, indicates that only the better class of goods and workmanship are wanted by the student, and this is what we now offer.
