DAY OF PRAYER YESTERDAY.

The annual international day of prayer, designated by the World Students' Federation, was observed yesterday by the students of the University very appropriately. All other colleges and universities of the country also celebrated it. The Christian associations invited the different organizations of the school to unite with them. The Ministerial Association of the city also joined with them. The day proved to be one of the most profitable events of the year. At 3:30 in the afternoon a service was held, as follows:

Song service, led by A. T. Hubble.
Vocal Solo.....Miss Lora Holmes
Scriptural Reading.....
Prayer.....Rev. Dr. Hindman
Address.....Chancellor MacLean
Vocal Duet.....
.....Miss Marie and Mr. A. T. Hubble

Open door will be kept at the Graham Taylor house charter day. All those who are interested in the work of the college settlement and the progress that has been made in various departments are cordially invited.

The gymnasium exhibition to be given on charter day promises to be a success. The usual contests will occur. In addition to these events a basket ball game has been arranged between the first team and the department of physical training. This game will be a close one and will be played for "blood." Dr. Hastings, Stebbins, Price, Pillsbury, and Berry will represent the department. Moore, Cortelyou, Story and the Anderson brothers will oppose them. Misses Barr and Pound will officiate.

Miss Effie Price, international secretary of the Y. W. C. A., will spend next week in the University of Nebraska. Miss Price has a national reputation as a speaker and organizer and her visit promises much for the Y. W. C. A. work. Among other events during her stay will be a joint reception tendered her by the Y. W. C. A. and Y. M. C. A. at the Lincoln hotel Monday evening, February 20. Invitations will be all students and members of the faculty.

Dr. H. B. Ward has just received from the United States National Museum in Washington a large collection of marine worms belonging to the group of Sipunculids so far as these are represented in the Museum. The set includes forms dredged by the Fish Commission Steamer Albatross along the Atlantic and Pacific coasts of this country and in the waters of the West Indies, and is the only considerable collection of these forms which has been made from this region. It has been sent with the request that the form be studied and named for the Museum.

A Latin Colloquium is to be started this semester. The first meeting will be on Tuesday evening, February 14, in room 204, University Hall, at 7:30. Sessions will be held once in two weeks, lasting an hour and a half. Only graduates may become members; but undergraduates of advanced standing will be admitted as spectators. All graduate students in Latin in the University Preparatory School, in the Lincoln High School and in the outlying colleges are invited to the Tuesday evening meeting. Professor Barber will review some of the recent articles of the periodicals on Latin Philology.

Spring Suitings and Silks

Fabrics for Tailor-Made Gowns have received special attention here this season and as a result our present showing of Tailor Suitings is far superior to any we have ever carried. Then the season's novelties in never ending variations of weaves, colorings and designs as well as all known makes and colors in staple fabrics, are arrayed here in greater quantities than ever.

Speaking of Silks is a pleasure to us, for we can say nothing within reason that our assortments will not verify. Every new pattern, every new color and every new weave known to the trade may be found here.

SILKS

We cordially invite you to inspect these assortments now whether you wish to buy or not. It will cost you nothing to do so and by doing so you may form a very accurate idea of the styles, colors and fabrics that will be worn this spring.
