Society Programs

How about that program? It costs no more to have it printed neatly and attractively than to have a poorly gotten up affair that every member is ashamed to place in a visitor's hand. Your society will be judged quite largely by the style of its printed stationery. I can make it right.

It is seldom that we, or any other publishers, are able to say truthfully of a book that "every mail is bringing orders for it." Yet this is the simple truth regarding *Gerdy's New Psychology*. Superintendents are ordering it for their teachers--training classes and reading circles. Principals are ordering it for their psychology classes--not only Normal Schools, but High Schools. Individual teachers are ordering it because, as they say, some fellow-teacher has a copy and considers it an indispensable part of the equipment of any teacher who proposes to do his best.
