

PERSONALS.

W. D. Reed, '95, is visiting in Illinois.

Messrs. Franey, Petersen and Gibbons were initiated by Delta Upsilon last week.

Frank P. Manchester was in Omaha last Tuesday for the last day of the exposition.

Phi Kappa Psi initiated A. Elmer Slate and Percy L. Parkhurst last Thursday.

Fred A. Cuscaden looked after football interests in Omaha last week prior to the game on Saturday.

Claude Reed returned last Monday from a tour over the state with the First Nebraska minstrel troupe.

M. H. Moore, Fred Lamar and Burton Christie, former students of the university, are playing on the football eleven of the Omaha Medical college.

Judge and Mrs. James H. Macomber of Omaha were in Lincoln last week, visiting their daughters at the Delta Gamma house on South Sixteenth street.

E. D. Banghart, '98, instructor in science in the Crete schools, is in Lincoln this week. The prevalence of diphtheria in Crete has caused the schools to be closed.

Miss Bertha Conde, national secretary of the Y. W. C. A., left Lincoln last Monday, having been in the city during the state convention. She was many friends among the university girls during her brief visit.

A letter from Miss Edna Hyatt, now of New York City, states that, in addition to her regular art work, she will make scientific drawings for the American museum of Natural History.

W. J. N. Robertson has received a letter from Charles Corey, saying he was married recently. Mr. Corey was a mechanical art student at the university in 1897-8, but at the outbreak of the Spanish-American war enlisted in company F., First Nebraska. He is now working in San Francisco, California.

On account of the lack of room in the art studio, the casts were moved into the art gallery, which will also be used as a studio.

Professor E. H. Barbour was in Saline county October 27 and 28, for the purpose of examining the limestone beds of that locality.

Dr. Wolcott, adjunct professor of zoology, addressed the Agassiz club of the high school last Wednesday afternoon on "Bird's Nests."

Professor Barbour's class in geology visited the quarries at Cedar Creek Saturday, stopping on the way to see the state fisheries at South Bend.

Students who are interested in agriculture, may, if they desire, get the 1898 report of the state board of agriculture by seeing J. A. Barrett.

Read Eugene Field's poem "A Large Cold Battle and a Small Hot Bird," and then go to Newport Cafe, 126 S. 12th. Our 15c meals are surprising.

A chess club is being organized in the university. Already fifteen have entered. The time and place for holding these games will be decided later.

The only thoroughly good place in the city where a student can get any kind of board that he wants is at Cameron's cafe, 114-118 South 11th street.

Every student in scientific courses needs "Wrapson and Gee Mathematical Tables," a library of scientific formulae. For sale at University Book Store.

Miss Sophie Lyon, traveling secretary of the student volunteer movement, will be in Lincoln about November 10. She will give an address in the chapel.

The Y. M. C. A. will have their annual committeeman's dinner December 14. Prominent workers, both state and international, will be present from all over the west.

The musical arranged by the Union society for Friday evening was postponed one week, in order to give the members an opportunity to hear William Dean Howells.

There is every indication that the girls' first basket ball team will be exceptionally strong this year. The captains of the first and second teams will be elected in about three weeks.

Arrangements are being made for the annual meeting of the state academy of science, which will hold sessions at the university in December. A two-days' program is being prepared.

History covers, full size, leather back, 15c each at Herpolzheimer's Book Dept. A full line of students' notebooks, history paper, theme paper, Faber pencils, lead pencils, etc., at lowest prices.

Dr. Hindman of the First Presbyterian church read the scripture lesson in chapel last Tuesday morning. Dean Sherman then gave a short address on the eminent novelist, William Dean Howells.

Professor Burnett of the department of animal husbandry of the experiment station, has returned from the national sale of Herefords at Kansas

The "Oxford Gray."

One of Our Great Overcoat Specialties.
Call and see them this week.....

It is the most perfect, the most tasty and the most comfortable outer garment ever designed, and its bound to be the thing this winter. We have hundreds of them. They are cut in the nobby box, half box or full length, and we have reached such perfection in fit, especially around the shoulders and collar where the ready-to-wear clothing of other dealers generally sags, that there is no earthly reason in going elsewhere or paying a custom tailor's exorbitant prices for an overcoat.

Our Prices for the Oxford Grays
range from \$10.00 to \$22.50.....

Armstrong Clothing Co.

City, where he succeeded in purchasing several fine animals.

All coal will go higher very soon if present conditions continue. It will pay every one to arrange for their winter's coal at once by seeing Charles B. Gregory at 1014 O street.

The university art students will hereafter receive instruction on Friday afternoon instead of on Saturday morning. This change has been made to accommodate those who have Saturday for their art work.

The following new books were received in the library last week: "That Fortune," a novel by C. D. Warner; "White Man's Africa," by Paulseny Bigelow, a detailed, up-to-date history of affairs in South Africa.

Prof. Brunner and Dr. Wolcott spent last Saturday at Ravenna, in the western part of the state, collecting specimens. Dr. Wolcott devoted his attention to birds, while Prof. Brunner explored some of the lakes in that vicinity for aquatic insects.

Ten dollars will be offered by H. L. Swisher, president of Acme press, Morgantown, W. V., for the best cover design of book entitled "Under the Cottonwoods"—A story of the homestead era in Nebraska. For particulars see Miss Sarah Hayden, art director.

A new instructor, Melville Price, has lately been appointed in the department of mechanical drawing and machine design. He comes to us from the state university of Colorado, where he held a position as instructor in prime movers and the photometry of electric lighting sources and as assistant in electrical engineering.

The Y. M. C. A. is planning a city directory. It will give the city addresses of all students, also the departments in which they work. The addresses of the members of the faculty

and all information in regard to organizations, their time and place of meeting, will be contained in this book. The directory will be for free distribution.

There are sixteen men already in training for track work in the spring. They appreciate the benefits from a steady course of training and competition, for places on the team will be keen. The making of the track team means as much to the candidates as it does to football men this year. Several good trips are assured, with prospects for more.

The Zoological department of the university is well represented in the current number of the "Journal of Applied Microscopy." Dr. H. B. Ward, as secretary, reported the annual meeting of the American microscopical society. Frank E. Avatson presents an interesting article on the summer's work in the United States fish commission laboratory at Avoad's hall.

The chapel was completely filled for the musical exercises Friday. Miss Daisy McClure gave a piano solo and Earl Wehn a cornet solo. William Dean Howells was present and the students called for a speech from him. Mr. Howells said that the best he could do was to stand up and that while the students might forget him, he would always remember every one of them.

The preliminary games between the gymnasium teams will be omitted this year and in their place will be substituted games between the four college classes. This method is taken to distribute the best players on the various teams, making them more nearly equal and giving sharper practice for candidates for the university team. From the candidates the picked team of five men and two substitutes will be chosen on individual work and merit.
