The most interesting thing at the greenhouses now is a bunch of bananas which is just beginning to sprout. From all appearances the bunch will be an especially large and good specimen and will require about six weeks for full development. The variety is known as the Musa Cavendishi. As soon as the bananas are full grown the tree will have gone past its usefulness and will be replaced by another. Photographs of the fruit will be taken during its development.

Last Monday, February 4, was the one hundredth anniversary of the appointment of John Marshall as Chief Justice of the supreme court. It was generally observed by the colleges of the country with appropriate exercises. The exercises here were held in the Chapel, Monday afternoon, at two o'clock and were in charge of the faculty of the law school.

The Chancellor in his introductory remarks gave a sketch of the life of John Marshall. He noted the important effect of having a man of such power and character to preside over the Judiciary of the United States at so critical a period in its history.

Addresses were delivered by Dean Reese, Professor Robins, Professor Loring and Mr. Whedon.
