

**Alumni Department**

Charley True '98, and Stone '98, visited at the Phi Delta Theta house last week.

John D. Hastie '99, visited his Phi Delta Theta brothers last week. Mr. Hastie is at present located in western Wyoming. He has been closing out his father's business.

A. S. Pearse, '00, visited university friends last Saturday. He is instructor of biology and commandant of cadets in the Omaha high school.

J. C. Hitchman '98, left for Cuba a week ago last Tuesday to accept a position of draughtsman under "Joe" Sargent, ex '99, who is in charge of the topographical survey of the department of Havana.

Herbert E. Reagan '97, was married on March 19th to Miss Marion Ethel MacArthur, of Chicago. Mr. Reagan is in the employ of the Western Electric Co.

The position to which Ernest A. Bessey, '96 and '98, has been appointed was incorrectly stated in these columns last week. Mr. Bessey is chief of the section of seed and plant introduction. This position was formerly held by Jared G. Smith, '88 and '92.

The Phi Delta Thetas gave a smoker for their alumni last Saturday night. The alumni present were Messrs. Haggard, Ralph Haggard, True, Hastie, Wolcott, and alumni of city.

Phi Delta Theta alumni in Chicago are practicing a stunt which is enjoying a marked degree of popularity. Every Friday noon, at 12:30, they meet at the Boston Oyster House, Madison and Clark streets, for lunch, where a large round table is reserved for the party. Informality and sociability mark the occasions. The luncheon hour is very generally known throughout the fraternity and visiting Phis, passing through the city, are frequently found among the goodly number of local men always present.

Saturday afternoon J. A. Green, '03, left for New Mexico to enter the employ of the engineering department of the Rock Island R. R. He will be the assistant to J. M. Rohrbaugh, '98, who is division engineer. As usual, when one of their number leaves, the civil engineering boys sent him off amid

cheers and repeated rounds of the university yell.

One of the debates in which the university was interested and in which she won honors is perhaps not known to many of the students. The third year German class in the Geneva high school gave a German debate, not long ago, under the direction of Miss Nettie Henry, '00. The German speaking people of the city were invited to act as judges. It was their verdict that the work of this class was a happy surprise to them and reflected great credit upon Miss Henry's ability as a teacher.

Will Dungan, one of the famous "Seven Bills" on the '96 football team, is at present in the Big Horn valley with a B. & M. surveying party. At the time he left the university he was a junior in the civil engineering department.

The third annual dinner of the Nebraska University Club of Chicago will be held in the ordinary of the Victoria hotel, corner vanBuren street and Michigan avenue, on the evening of Friday, April 19, 1901. Reception at 6:30 p. m.; dinner at 7:30 p. m.; plates \$2.00.

It is expected that two or three men prominently connected with the university will attend and will address the club. Definite announcement will be made later.

All alumni, former students and friends of the university, together with their wives, husbands or friends are invited.

Please forward name and address of any alumnus recently removed to Chicago; also any change of address of a former resident, to Ralph S. Mueller, 1217 New York Life Bldg., Chicago.

**THE FAMOUS KALAMAZOO UNIFORMS FOR CADETS**

are unequalled for style, material and fit.

**The University of Minnesota**

**College of Medicine and Surgery**

The thirteenth Annual Course of Lectures will commence on the 19th day of September, 1900, and will continue eight and one-half months. The course is graded and covers a period of four years. Medical Hall, the Laboratory of Medical Science, the Laboratory of Medical Chemistry, and the Laboratory of Anatomy are situated upon the Campus. The clinical opportunities afforded by the hospitals and dispensaries of Minneapolis and St. Paul are at the command of the College. For outdoor clinical service a new clinical building has been built in a central location.
