

been engaged in the Normal schools of Pennsylvania for the past thirteen years, and when elected principal of our school was Deputy State Superintendent of Pennsylvania.

The Model School gave an entertainment the evening of the 14th, which was a grand success, and did much credit both to the school and its teacher, Miss Dowden.

Albert Joyce, of the STUDENT, has been with us the past week, visiting the school, and looking up the interests of his paper. We found Mr. J. a fine young man, and we would re-Joyce to have him call again.

The 3d year class visited the Brownville High School last week and were much pleased with the interest manifested in the school. Mrs. Holtz and Misses Allie Hitt and Lou Tucker, from the Normal, are teaching there.

The students of the Normal presented Prof. Thompson with two fine presents in the way of statuary. One represented Rip Van Winkle on the mountain, the other his return home after his long repose of twenty years.

Prof. W. E. Wilson gave us a lecture recently upon his travels in France and Switzerland. His lecture was very interesting and instructive. Professor has been travelling in Europe during the past year, and is now teaching in Palmyra.

At a recent lecture delivered by Dr. Converse to our school, upon the subject, "The Development of the Mind," the Dr. used two apples, grown from the same tree, to illustrate his subject. One was a fine, large apple, the other of the nerly order. After the lecture, the large apple was offered to the student giving the best reproduction of the lecture, the nerly one to the second best. Mr. Letton received the first prize and Miss Slater the second.
