We cheerfully call attention to the new insurance ad. of Mr. J. V. Parker in another column. Mr. Parker is an old student well known by most of us and we are satisfied that he would not engage with any company until he had thoroughly and carefully examined its plans and workings, and found them to be worthy of patronage and just as represented. And right here we would say a word in regard to Life Insurance in general. People are fast waking up to the fact that a man can no more be without insurance on his life than on his house. In fact there are more substantial reasons for a man paying a few dollars a year, that in case of his death, some one wholly or partially dependent upon him may receive from \$2,000 to \$5,000 for their maintainence, than there is for carrying an insurance upon his dwelling. We believe this company is a reliable one and hope that our instructors and fellow students will patronize it.
