Labor Contract With Convicts.

The State Board of Public Lands and Buildings decided to permit the Lee Broom and Duster company to use convict labor until June 17 at 50 cents a convict per day. After that date the labor is to be paid for at a rate of 75 cents a day for each convict. This notice was served on C. R. Lee, manager of the company, so that he would know he is expected to vacate the penitentiary by June 17 unless he agrees to accept the convicts at the higher rate of pay. The action of the board was reported to Governor Sheldon, who approved it.

The Lee company objected strenuously to paying a higher rate for the convicts and Mr. Lee said he would recommend to the next legislature that the state install some kind of manufacby the secretary of state when the turing plant and use the convicts itself. "This," he said, "will show the people that little money is made out of convict labor. The state will never be satisfied, however, until it has tried the experiment of using the convicts and the quicker this is tried, the better I will be satisfied."

While he said he had several offer: from other prisons to use their convicts. Mr. Lee said if he finally conclued to quit the penitentiary here he hoped to quit prison labor entirely.
