NOT EVE'S FAULT THAT TIME. Childish Realism Instilled Into Story

of Garden of Eden.

Realism rules the nursery. A certain Philadelphia matron, who had taken pains to inculcate Biblical stories as well as ethical truths in her three children, heard, the other day, long drawn howls of rage and grief filtering down from the playroom. Up two flights she hurried, to find on the floor Jack and Ethel, voices uplifted. Thomas, aged nine, sat perched upon the table, his mouth full and his eyes guilty.

"Whatever is the matter?" asked

"Bo-o-o!" came from Ethel; "we were playing Garden of Eden. Bo-o-o!" "But what is there to cry about?" Then Jack, with furious finger pointing at Tom, ejaculated through his

A custom house clerk, who, prior was a schoolteacher "a good many years yet," as he proudly informs his associates, was standing on the corner of Fifth and Chestnut streets one cold day last winter, deeply engrossed in studying a legend which appeared on a dairy man's wagon, as follows: "Pasteurized milk," etc.

His face wore a puzzled expression, but finally betraying evidence of dawning intelligence he remarked to a by-

THE STATE CAPITAL

MATTERS OF INTEREST TO ALL CITIZENS.

A Former Rule Has Been Repealed and a New One Will Be Adopted by the State Board.

New Rule for Old One.

The rule requiring members of soldiers' homes in Nebraska to pay a portion of their pension money to the cash funds of the homes, recently fought through the courts till its legality was sustained and then suspended by the state board of public lands and buildings till further orders. has been repleaded by the board and a new rule will be adopted. At a prolonged session of the board this was decided upon and as the member of the board who was delegated to draft the new rule does his duty the action of the board will be made official. The new rule which was tested in

the courts and which was upheld and which is now rescinded provided that each member of the homes might retain \$12 a month of pension money and pay 10 per cent on all over \$12 a month and not more than \$16 a month; 20 per cent on all over \$20 and not more than \$23; 30 per cent on all over \$24 and not more than \$29, and whatever the commandant and board shall deem just on all over \$30. If a member is helpless the rule provided that he should pay a portion of pension money deemed equitable by the board and commandant, unless he should have a dependent wife or children. Another rule that was never mentioned in the court proceedings provided that any member having a dependent wife or minor children who refuses to contribute two-thirds of his penson, on demand, for the use of such dependents, offers good grounds for his discharge.

It was discovered by the board that the rule had not been enforced at the Grand Island home, but was enforced at the Milford Lome. As it was considered more favorable than the old rule adopted many years ago by the populist administration, the members of the present board supposed it would be satisfactory to all concerned. In this they were incorrect as shown by the injunction suit that was commenced by a member of the Grand Island home and backed by prominent politicians.

Although the state board won the suit in the supreme court, the suit is still pending and the plaintiff has a right to file a motion for a renearing. Until the suit is finally settled the board canot adopt a rule that would take any part of pension money, even if the members desired to do so. It is understood the rule agreed upon will provide that no veteran who is able to his entry into Uncle Sam's service, to earn a livelihood or who has means of support shall be admitted to the home and that such veterans may be honorably discharged at the discretion of the board. No pension money will be retained, but if in the judgment of the board any member of the home is incompetent to handle his own pension money he will be required to deposit all of it with the commandant and it will be paid back to him in installments such as the commandant deems necessary for the good of the member and when the member is discharged from the home he will receive back all his funds on deposit with the com-
