Fortunately the wound was only deep enough to break the skin, but her advanced age will make it necessary for her to remain under the doctor's care for some time.

LEIGH.

From the World.
Mr. and Mrs. Eugene Hyland came over from Columbus Wednesday to take in the tournament.

On Thursday evening the tent in which Owens, the armless musician gave his performance caught fire and the greater part of it burned before it could be extinguished. The fire department was called out but could do nothing as someone has taken the hydrant wrench away from the cart.

Mrs. Geo. H. Bostel came up from Mineola, Iowa, last Saturday and on Monday accompanied her mother, Mrs. Carl Staab to Omaha where the latter will undergo an operation for a cancer. Later we learn that the physicians declared it inadvisable to operate upon her and she returned home Tuesday evening.

J. W. Payne was arrested and taken before Judge Cowan Tuesday, charged with assault on the person of twelve year old Maggie Cegavske who lives with her mother on a farm south of town. He was convicted and given a sentence of sixty days in the county jail. Several months ago he was convicted on a similar charge and, after serving a jail sentence, ordered to leave the county. He returned, however, and is said to have been attempting to secure money from Mrs. Cegavske when arrested.—Stanton Picket.

On Friday night of last week, Miss Rose Schmid received an injury at the hands of Jane Kingston that might have proved very serious. It seems that as Miss Schmid was driving home their cows, one of them strayed over on the side of the road near Jane Kingston's place; Jane at once came running out with a rake and striking at Rose, drove her home. Jane then went home and Rose again came out in front of her home began to milk the cows. Jane again came running out, this time armed with a pitch fork and drove the Schmid girl into her own yard, then struck her with the fork. The fork struck her on the inner side of the arm, just above the elbow, entirely up through the muscles for some distance. The wound was at once treated by a physician and also pronounced dangerous. While so far the wound is healing naturally, still there was danger of blood poison or lock jaw as the fork was quite rusty. A complaint has been filed against Jane Kingston but the trial has not yet come off. This is rather a serious case and we think that Jane will not find it so easy to get out as some of her cases, were. There is talk of trying her before the board of insanity, but this is getting old as that has been tried before. There is one thing sure, there should be something done. She is no fit person to live in community, as she is always having trouble.

ALBION.

From the Argos.
While Edna Woodworth, daughter of L. S. Woodworth, was visiting at her uncle Ed's Monday evening, and was playing around the wagon, she fell in some way, her clothes caught on the wheel throwing her in such a manner as to break her arm just above the wrist, the bones protruding. This was a sickening affair. It was some time before the wound could be dressed as they had to bring her to town to the doctor. She is getting along as well as could be expected.

George Gee, sr., got a severe shaking up Saturday night that came near being the finish of him. Along toward eleven o'clock he stepped out to look around the corner of his shop to see the state of the weather. It was terrible dark and he stepped a little to far west and fell into a hole left in the floor of the Steiner building. He didn't fall to the bottom of the cellar but the impact with the joint broke three of his ribs loose and nearly broke his arm. His condition is very painful and it will be weeks before he is able to do anything. A cracked rib is bad enough but a lot of broken ones is still worse.

CRESTON.

From the Statesman.

Mr. and Mrs. A. E. Priest came up from Columbus on Tuesday, for a visit with Mrs. Priest's parents, Mr. and Mrs. H. O. Studley.

The little son of Mr. and Mrs. Clausen was kicked in the face by a colt, on Monday cutting a gash over the right eye and badly mashing its nasal bone. The child was brought to town and attended to by Dr. Morris. It required seven stitches to close the wound. The child is getting along nicely.

On Monday, August 10, E. T. Graham of Creston had on the South Omaha market a car of beaves averaging 1368 lbs which were sold by Clay, Robinson & Co. at \$6.80, extreme top for that day; also a carload averaging 1350 lbs at \$6.60 the next highest price. The following day M. Graham marketed through the same firm three cars averaging 1343 lbs which topped the day's market 80c per cwt, bringing \$6.70.

CHICKEN IN NEW STYLES.

Try the Fowl Stewed with Cocoanut or with Dough.

Chicken with Cocoanut.—Stew a chicken and remove the bones. Grate a cocoanut and cover it with water for ten minutes; strain it and add more water. This again should be strained through a bag of coarse cheesecloth, and the rich liquor resulting—about a pint—added to the chicken. Cook slowly a few minutes and thicken with two tablespoonfuls of flour mixed smoothly in cold water, one-half teaspoonful salt, and three teaspoonfuls of tumeric powder. Let all cook up with the chicken, then lay it on a platter surrounded by boiled rice and covered partly with gravy.

Chicken Stewed with Dough.—Another method is to mix spices, raisins, salt and butter through some partly boiled rice, and with it dress the chicken, then wrap it in dough rolled pretty thick and boil it in a cloth, not too tight, for half a day.

East Indian Pillau of Fowl.—For this is required one chicken, dressed as for boiling, and three cups of rice. Put the fowl in a stewpan with one and a half pints of broth and some spices tied in a bit of muslin. These spices may consist of two cloves, a wide stick of cinnamon, two dozen cardamoms, and one-half teaspoonful each of coriander seed, mace, and allspice—quantity and combination regulated to taste. Cook these with the fowl 20 minutes slowly. Place one-quarter of a pound of butter in a frying pan with one sliced onion, one dozen raisins, and some blanched almonds; fry till brown and strain.

In the butter remaining fry the rice until brown. Strain off the butter, and by degrees add the broth until the rice is tender, then put it with the chicken and cook until it is nearly dry. Remove the spices and serve the fowl smothered in the rice, garnishing with the fried raisins and almonds, and, if liked, some hard boiled eggs and crisp slices of bacon.

HAVE COOL DINING-ROOM.

Apartment May Be Kept Pleasant with a Little Care.

A cool dining-room is one of the greatest blessings one can possess in summer, but if one's room is not cool on account of its location it can be kept cool with not a great deal of difficulty. Air the house thoroughly in the morning before the sun gets hot, and then close the windows to the very bottom and pull the shades all the way down.

Close the door leading into the kitchen to keep the odor of the cooking out of the dining-room. If the room despite these precautions gets hot and sultry wring some cloths out of cold water and hang them in front of the window, which you have partially opened, and allow the breeze to blow through the wet cloths until they are dried. Quickly close the windows and place a dish or pail of cold water in the middle of the room. As soon as the water becomes warm remove it from the room.

Even on the most sultry, muggy day this method will seldom fail to cool and refresh the air of the room. Adding a drop of two of oil of lavender to the water will give the room a delicate, indistinct odor and will drive away any flies which chance to be there.

Left-Over Eggs.

Eggs that have been hard boiled and sent to the table and untouched can be sliced and dressed with mayonnaise. Fried eggs can be run through a food chopper, mixed with potatoes and cooked in potato balls. Poached eggs should be reheated and cooked done and run through a ricer to add to salads. Boiled or fried eggs if run through a ricer and mixed with finely chopped meat make good croquettes. If the yolk of an egg is used and the white is left, beat it and stir into apple sauce. A broken egg can be covered with water, placed in the refrigerator and will keep for several days.
