Joseph M. Brown was elected governor of Georgia over Yancey Carter, Independence party candidate.

William H. Taft and William J. Bryan, rival candidates for the presidency of the United States, met in Chicago at the fourth annual banquet of the Chicago Association of Commerce. It was strictly a non-partisan affair, politics being absolutely barred. Earlier in the day Judge Taft addressed the Lakes-to-Gulf Waterway convention, and Thursday morning Mr. Bryan made a speech before the same body.

President Roosevelt announced that he would make no speeches in support of the candidacy of William H. Taft for the presidency, as there was no necessity for such action.

Revival of the rumors that President Roosevelt will make speeches in support of the Republican national ticket were met by this statement from the White House: "The president has no intention at present of taking the stump in behalf of Mr. Taft."

AMERICAN AERONAUTS DROP TWO THOUSAND FEET.

BALLOON BURSTS IN THE AIR

Parachute Spreads After Drop of 2,000 Feet and Fall is Cnecked, Neither Being Hurt.

Berlin.—The international balloon race which started from the suburb of Schmargendorf, was the occasion of a thrilling accident, two American aeronauts having a miraculous escape from death. The American balloon Conqueror, the only American built craft in the contest, having on board A. Holland Forbes and Augustus Post, less than two minutes after the start burst at an altitude of 4,000 feet. For 2,000 feet it shot down lika a bullet, and then the torn silk bag assumed the shape of a parachute, thus checking the rapidity of the descent. Coming close to the earth, however, the basket smashed into the roof of a house, but the two men escaped with slight injuries.

The race, in which twenty-three balloons participated, represented Great Britain, France, Germany, the United States, Switzerland, Italy, Belgium and Spain, started at 3 o'clock Sunday afternoon in the presence of at least 8,000 spectators. The sun shine was brilliant and the heat was that of summer. Amid the strains of "America' and volleys of cheers, the first balloon was sent away. It was the "American II," under command of James C. Mc-Coy, who was accompanied by Lieutenant Voghman. The balloon was decorated with the stars and stripes and it sailed away to the southeast at a rapid pace, the aeronauts waving their

hats. A representative of each of the other nations followed the American balloon in succession at intervals of two minutes, the national hymn of the respective countries ringing forth as the ropes were cast loose.

The second batch of eight balloons was led by Forbes, in the "Conqueror," which was started with some difficulty owing to a gusty wind and too much ballast. But eventually it shot up and reached a high altitude in an incredible short period the basket swaying violently. Then almost instantly a cry of horror arose from the crowd, who saw the silk collapse and shouted, "the balloon is ripping up."

Thousands who had gathered there stood for a moment petrified. Some turned away, fainting as they saw the balloon falling with lightning-like rapidity. At the same time, showers of sand and appurtenances of the balloon shot downward with equal rapidity and then dayligt was seen through the envelope, great ragged edges of

the silk showing on either side. "They are killed," went in a hushed wisper through the crowd, but shortly the remainder of the envelope appeared to take, first a triangular shape and then was transformed into a sort of parachute at the top of the net and the progress of the wrecked balloon

was considerably arrested. It came down slower and slower meanwhile being swept by the wind, far to the southeast, and finally disappeared from view behind a block of houses. The suspense among the crowd was terrible. But a few minutes later a telephone message was received from Friedenau which announced that the men had landed and not been seriously injured.

Cholera at Manila.

Manila-Five new cases of cholera are reported in this city for the day ending on Sunday morning, while three new cases were discovered for the day ending Monday morning. These figures were secured after the first two days of the resumption of the domiciliary visits, the inspectors calling at each house twice during each day.

While hunting on Elm creek, three miles south of Fremont, John A. Matson, a Saunders county farmer, found a large petrified tooth which weighs four and a half pounds. It is believed to be the tooth of a mastadon. Mr. Matson dug the tooth out of the high bank of Elm creek, where it was imbeeded in sandstone. He had noticed its polished surface protruding from the bank.

At the home of Mr. Si Mais, in Elmwood, John Gordon, aged seventy-six years, dropped dead, Mr. Gordon was an old soldier, having served during the civil war in company I, Twentythird Missouri infantry. He worked the scheme on a clothing merchant, and when the discovery was made that the check was a forgery Carpenter was not to be found.

Miss Mary Stelik, of Humboldt, a domestic in the employ of L. M. Sterns had a narrow escape from death while engaged in her household duties. She had been cleaning spots in a rug with benzine and carried the piece too close to a lighted gasoline stove, when it burst into flames, which immediately communicated with the clothing of the young lady. She was rescued before being seriously burned.

John Schnell, a Union Pacific brakeman, fell from a freight train, while the same was in motion three miles out of Wood River. His face was badly bruised and both wrists sprained but he seems to have been uninjured otherwise. Brakeman Fern, who sustained a broken collarbone in the Kearney wreck, was brought to Grand Island and taken to the St. Francis

hospital. A number of members of the board of supervisors of Gage county are in favor of appealing from the judgment of the federal court in the case of John H. Sparks against the county. Sparks recently obtained a judgment for \$9,000 with interest. The referee, E. J. Clements, in his findings, d'd not allow the interest but Judge Munger did. The board objects to paying the interest and will probably carry the

CITIZENS.

Henceforth and Hereafter Uncle Sam Will Pay Only Men of Six Months' Service.

No longer will the Nebraska national guard be allowed to draw money from the government for the support of raw recruits taken to the state camp or to the regular army maneuvers. The war department has issued an order that no money will be paid to guardsmen who have not been enlisted for six months. The government pays the state troops invited to participate in maneuvers and it pays a portion of the per diem of all enlisted men taking part in state encampments and pays all the salary of officers of the guards during their attendance in state camps.

The new order of the government will cause considerable hustling among the different companies in the Nebraska national guard. The company officers who desire full companies at the next state encampment must begin to recruit in January and then must try to hold the men on the rolls for six months. However, many of them will need very few men. Suca company officers may devote their time to efforts to hold the enlisted men they now have in readiness for the next annual camp. Formerly many recruits were accepted just prior to the annual camp. Men were not hard to find for the annual camp was considered a sort of hollday week. The men later might drop out almost at will and there would be a new set in the succeeding camp. The adjutant general's department during the past summer asked company commanders to bring to the state rifle camp only those of their men who had been faithful in attending drill. This shut out many "dead" ones from the camp.

Election Proclamation. Governor Sheldon has issued the fol-

fowing election proclamation: Under, and by virtue of the authority vested in me by the provisions of section 11 of chapter 26 of the Compiled Statutes of Nebraska, for the year 1907 entitled "Elections," I, George of Nebraska, do hereby issue my pro clamation, declaring that on Tuesday, the third day of November, A. Much Power from Niagara.

Power generated at Niagara Falls is to be distributed all over Canada. Bids have been asked on 10,000 tons of structural steel for the Canadian government. The steel is to be used for towers which will support the cables used in transporting the current. Already power generated at Niagara is being sent to a distance of more than 125 miles, and it is the intention of the Canadian government to increase this distance, says the Scientific American. Towns in every direction about Niagara will be supplied.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its great-
