

SYNOPSIS.

"Vanishing Fleets," a story of "what might have happened," opens in Wash-Ington with the United States and Japan on the verge of war. Guy Hillier, sec-retary of the British embassy, and Miss Norma Roberts, chief aide of Inventor Roberts, are introduced as lovers. The government is much criticised because of its lack of preparation for strife. At the most inopportune moment Japan declares war. Japan takes the Philippines without loss of a man. The entire country is in a state of turnoil because of the government's indifference. cause of the government's indifference: Guy Hillier starts for England with secret message and is compelled to leave Norma Roberts, who with military officers also leaves Washington on mysterious expedition for an isolated point on the Florida coust. Hawaii is captured by the Japs, Country, in termoil, demands explanation of policy from government. All ports are closed, Hillier going to Eng-land on last boat. England learns that Jap fleet is fast approaching western coast of America. Hillier decides to retarn to America by any means. Siego, Japanese spy, discovers secret prepara-

CHAPTER V .- Continued.

In his anxiety he was on the verge or rushing out and trusting to any convenient pretext, when a boy came hurrying past him, whistling as he went and homeward bound. Here was the spy's opportunity, and he accepted it. He hailed the lad, and in pigeon English told him he wanted to get aboard the vessel if he could.

"Well, you can't do it," came the response. "If you wanted to git on, why didn't you run after the ship instead of stopping me?"

"Where she go?" queried Seigo. "Oh, you want to know where's she's going now, do you, Mr. Chink. Well, a fellow on the dock said she was going to Guantanamo, and that means you couldn't go on her if you wanted to."

Then with a derisive laugh he took up the strain of his melody at exactly the same place he had left off when accosted, thrust his hands into his pockets and continued his way.

Seigo was elated. That accounted for it, then! The United States was playing some crafty game, using its conducting some experiment or outthe home of the laundryman.

WHY NOT OWN LAND?

ONE OF THE BEST WAYS TO MAKE MONEY IS TO INVEST IN WESTERN CANADA.

"Deep down in the nature of every

properly constituted man is the desire

to own some land." A writer in the Iowa State Register thus tersely expresses a well-known truth. The question is where is the best land to be had at the lowest prices, and this the same writer points out in the same article. The fact is not disguised that the writer has a personal interest in the statement of his case, and there is no hidden meaning when he refers to Western Canada as presenting greater possibilities than any other part of the American Continent, to the man who is inclined to till the soil for a livelihood and possible competence. What interests one are the arguments advanced by this writer, and when fairly analyzed the conclusion is reached that no matter what personal interest the writer may have had, his reasons appear to have the quality of great soundness. The climatic conditions of Western Canada are fully as good as those of Minnesota, the Dakotas or Iowa, the productiveness of the soil is as great, the social conditions are on a parity, the laws are as well established and as carefully observed. In addition to these the price of land is much less, easier to secure. So, with these advantages, why shouldn't this -the offer of Western Canada-be embraced. The hundreds of thousands of settlers now there, whose homes were originally in the United States, appear to be-are satisfied. Once in awhile complaints are heard, but the Canadians have never spoken of the country as an Eldorado no matter what they may have thought. The writer happened to have at hand a few letters, written by former residents of the United States, from which one or two extracts are submitted. These go to prove that the writer in the Register has a good basis of fact in support of his statements regarding the excellency of the grain growing area of Manitoba, Saskatchewan and Alberta. On the 29th of April of this year W. R. Conley, of Lougheed, Alberta, wrote a friend in Detroit. He says: "The weather has been just fine ever since I came here in March, and I believe

that he had been deliberately played

with an unconscious mouse beneath

the eyes of a vigilant cat. Worst of

all, this in itself was confirmation

that none of the later reports he had

sent out to Japan had reached their

destination. Probably every message

he had dispatched was now in the

hands of the Americans. His only

hope of conveying warning to his coun-

trymen and for his own life depended

on his escape from the clutches of

these men, who could appear ignorant

and torpid when in reality they were

advised and alert. In a burst of im-

potent rage he shook his fists at the

stars. His companion caught his arm.

one chance. You must get away from

Washington to-night. I have a friend,

a Canton man, who is a gardener in

the outskirts. If we can reach him he

will take you in his wagon to a rail-

way crossing before the light comes.

Answer His Oustion

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Red Banks, Miss. - "Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound."-Mrs. Willie Edwards.

Hampstead, Maryland.—" Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women." - Mrs. Joseph H.

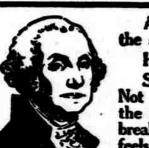

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful - or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited. -

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.
