A Boy's Essay on Ducks. A schoolboy assigned to prepare an

essay on ducks, wrote: "The duck is a low, heavy-set bird composed mostly of meat and feathers. He is a mighty poor singer, having a hoarse voice, caused by getting so many frogs in his neck. He likes the water and carries a toy balloon in his stomach to keep from sinking. The duck has only two came pretty near missing his body. Some ducks when they get big have curls on their tails and are called drakes. Drakes don't have to set or hatch, but just loaf, go swimming down me."-Delineator. and eat. If I was to be a duck I'd rather be a drake."-National Food Magazine.

Idler Severely Dealt With.

Old-time Englishmen hated idleness An act passed in 1531 decreed that any person "being whole and mighty in body and able to labor" found begging might be arrested, and if unable to give a satisfactory account of himself he was brought to the nearest market town, tied to the end of a cart, stripped of his clothes and beaton with whips through the town. bleeding and ashamed, after which degradation he was sent to his native place, on his oath to "put himself to labor like a true man ought to do." If the sturdy vagabond were caught a third time in idleness he was to suffer death, "as an enemy to the com-

AS TO ORIGIN OF THE SPOON.

Shells Probably First Used for Pur-

pose in Prehistoric Times.

The suggestion is offered by a cor-

respondent that the domestic spoon probably owes its origin to the shell. Shells of the mussel, scallop, and oyster, it is believed, were used in prehistoric times as spoons and ladles, the handle being formed of a piece day, and the old Highland custom of Salts, ordinary pills and cathartics offering whisky in a shell has been Westman in his "History of the name of a spoon-cochleare-derived from cochlea, a shell or cockle. The Celtic spoon also closely resembled We have a positive, pleasant and safe the shell in form, though made of the ancient expression: "To spoil a

Don't Let Problems Worry. Of course life is full of problems. The only way to get any comfort is to throw them all in the wastebasket and to do the things we can see clearly in daylight.

For Married Men.

Don't expect to have your own way in life. You must yield one-half at least. Let your wife have her way once in a while and experience a throb of generosity,-Exchange

IS COSTLY VISITOR

SANTA CLAUS GREAT DEPLETER OF POCKETBOOKS.

Of Course the Cheery Old Chap Is Always Welcome, But Just the Same-Well You Know How It Is.

"As I look back on Santa Claus," said the father of a family. "I find myself inclined to be a little peevish

with him, just a little. "He's a nice old man, with his ruddy face and his white whiskers and his jolly paunch, but he's so insistent. so very insistent. You think you've given him all he wants and all he's going to ask for; then back he comes again for more, always wanting more, and asking it with such a manner, with such gravity and humor that you can't resist.

"This year Santa, or he and his authorized agents, all but broke us. We set aside in our minds months ago the amount that we thought we could afford to spend this year for Christmas, making the amount, so we thought, more than generous. At any rate it was more than we could afford, and then we cut our cloth for the rest of the year according to that depletion of our finances. It was going to skimp us some but we were going to pull through all right, and we would have done so if we had been able to get through according to the original plan; pinched, but all right.

"But, do you know that about a month before Christmas had come we found that our Christmas money had run out? About two-thirds of the things bought and the money run out. We had to make further appropriations, for of course those other things had to be bought.

"So we scraped up some more Christmas money, skimping in other ways to provide it and started in buying those other things, sure that this time we would have enough. But did

"No. Three days before Christmas in the last grand rally to buy the things we had to have it was discovered that we'd got to have more money. A good many things had cost more than we had expected they would and we had kept thinking of more people to whom we must give, and it all took more money. Money, money, money! But we had to find it, and we did, though as a matter of fact it did crowd us hard. We had expected to be pinched, but now we were squeezed and squeezed dry.

"So much for that mild, benignant, humorous and gentle but at the same time vigorous and persistent and persuasive old man with the white whiskers, Santa Claus. When he had got through with us he left us without a dollar.

"But we were glad to have him come around. Perhaps it is well he doesn't come oftener and I guess he knows that; for he's a wise old chap. as well as kindly; he doesn't draw on us except when he knows we are ready to honor his drafts, and so we are glad to see him when he comes at Christmas time. He prompts us to do many pleasant things that in our selfish hearts we might never have thought of but for him."

Meerschaum Running Out.

Unless a fresh source of supply is found, meerschaum will soon be worth double as much as it is to-day. The article was introduced into Europe, so far as its use for pipes is concerned, through Turkey. This was about the year 1750. A large supply was also found in Ruhla, in Germany, near the Thuringia forest which, until recently, gave employment to about five thousand hands. Many of the most notable among the German sculptors had their first training as carvers of meerschaum pipe bowls. The supply, however, has now almost ceased, and the only important beds in the world to-day are in Asia Minor. The industry there is now controlled by American and British capital, with the result that the stuff is now 50 per cent. dearer than it was a few years ago, with the prospect of a further advance in price at an early date.

Detachable Coiffures. "Andre Autard, who is John D.

Rockefeller's coffeur," said an actress. "waves the hair beautifully and whenever I'm in Paris I pay him a visit at his shop in the Rue Castiglione. "On my last visit, talking about wigs

and false curls and such things, Mons. Autard said: "'What would the world do without

us colffeurs?"

"And he declared that the prettiest actress in Paris was giving a tea one afternoon when her hair-dresser was announced.

"'My hair dresser, eh?' she said. Well, show him into the boudoir and tell him to begin at once. I'll be with him in an hour."

Famous Woman Explorer.

Mrs. Marie Robinson Wright of Georgia is believed to hold the record for having accomplished more in the way of penetrating countries hitherto unknown than any other living woman. with the possible exception of Mrs. Fanny Bullock Workman. She is called by some "the Columbus of South America," from the fact that she, undaunted by hardships and perils in the countries she has visited, has opened to the pioneers of trade and commerce a new paradise that blooms south of the equator, where untold wealth awaits development at the hands of civilized man. She estimates that she has traveled 200,000 miles in pursuit of her work.

Individual Responsibility. Every creature, female as the male, stands single in responsible act and thought, as also in birth and death .-E. B. Browning.

LESSON FOR THE WHOLE RACE. Harmony That Might Be If Each Would But Do His Part.

There is no prettier sight in the world than a column of choir boys entering a church and singing the processional as they slowly march to the altar, declares a writer in the Columbus Journal. There is youth in its sweetest aspect-bright-faced boys in all their health and hope, engaged in a beautiful religious ceremony, stepping in harmony to the fairest ideals of worship. But it is more than a mere ceremony. It has a lesson for all-a lesson of the happiest import. See that little boy in the processioncaped in white, the sunrise on his brow, and singing out of his heart a noble melody. He is only a part of a great harmony, and modestly he does his part, content to be simply one to blend his voice in the sweet strain of worship.

The lesson touches closely human experience. Here we are, a great crowd gathered on the earth, each one engaged in some service, to his country, to humanity, to home, to business or perhaps some poorer one-how like that little boy in the processional might it be, if every one would add a beautiful note to the harmony of life and lose himself in the procession marching toward the altars of the common good.

TRAINING THE FEEBLE STEPS. Cent School Was a Worthy Ancestor of the Kindergarten.

A cent school is so called because the children who come to it bring each one cent, clutched tightly in a little hand, or knotted in the corner of a handkerchief, a daily offering. If the cent is forgotten, or lost on the way, the child goes home for another, that is all, and has scolding for carelessness into the bargain. The littlest children go to it-used to go, rather, for indeed this should all be in the past tense rather than the present, the cent school being a thing of the past and, as one might say, a greataunt of the present kindergarten, an old woman from the country, who is rather plain in her ways. Eunice Swain would have thought a kindergarten foolishness. Her children did not come to school to be amused, but to work. She put them on benches in her big kitchen, because it was warm there, and sat in the dining room door and taught them, or chastised them. as the spirit bade her. She taught the three Rs. and manners. and truth telling, and, above all, humility, impressing on these infants daily that they belonged to a generation, not of vipers exactly, but of weaklings .- L .H. Sturdevant, in Atlantic.

One of Our Markets.

Liverpool, the largest market in the United Kingdom for American cottonseed cake and meal, as well as other imported oil cakes, takes annually between 35,000 and 50,000 tons of American cottonseed cake and meal. Large quantities of cake and meal are sold to other British ports by the Liverpool

PREDICTION MADE ABOUT EVERY TWENTY-FIVE YEARS.

Numberless Are the Prophets Who Have Set Days for Dread Happening-Scientists Declare It

Will Last Long.

It may be interesting to the timid to know that the end of the world has been similarly predicted on an average of once every 25 years since the first recording prophecy of the bishop of Hippo, in 395 A. D. Since then there have been hundreds of dates set for the end of the world, each prediction taken more or less seriously by some people.

In the year 999 thousands of people from every quarter of the old world sold their possessions and began a journey toward Jerusalem. Numerous prophecies had been made setting the year 1000 as the end of the world. The failure of the predictions to come true resulted in great suffering among the poorer classes.

The year 1212 saw thousands of people from Europe and Asia journeying to the Mediterranean sea, which prophets had predicted would become dry in order that they might walk to the Holy Land for the end of the world.

An Italian priest predicted the end of the world in 1335, but the prophecy was not generally believed. In 1533, however, the prophecy of Steiffel, the friend of Martin Luther, which set October 3 of that year as the day for the end of the world, was widely believed. Thousands of Steiffel's foliowers disposed of all their possessions and awaited the coming of the great event. As the day passed and nothing out of the ordinary occurred the angry men and women turned on Steiffel and nearly killed him.

In recent years numerous prophets have set various days as the end of the world. The Adventists, when their followers numbered thousands, prepared for the coming of the world's end in both 1843 and 1844.

During 1899 nearly all the people in the city of Kharkow, Russia, sold their belongings and awaited the end of the world, which they firmly believed would take place in that year. The winter of 1899 and 1900 was severe and hundreds of the inhabitants died from hunger and exposure.

In the last ten years preachers and religious enthusiasts throughout this country have set days for the end of the world. Nearly every year from fatal year, while several have set the date as the year 2000. Half a million Porto Ricans spent Thursday, May 22, 1904, in prayer, awaiting the coming of destruction.

As a contrast to the dates set by students of the Bible for the world's end are the predictions of scientists. who base their figures on scientific theories. The very shortest time any of those men give for the end of the world is 3,000,000,000 years.

A Question of Courtesy. When President Roosevelt and his party were hunting in the jungles of Louisiana they had with them as chief cook and bottle washer a native darky named Sam, whose politeness was only exceeded by his professed fear-

lessness in the face of danger. After a camp had been opened Sam was sent out to reconnoiter in the vicinity and report prospects for game. Soon after he had disappeared unearthly yells were heard and he was seen leaping and bounding through the thicket in a desperate effort to overcome time and distance in reaching camp. On his arrival, hatless and breathless, he almost fell into the arms of the chief guard, who exclaimed:

"Why, Sam, what's the matter?

What scared you so?" "I isn't skeered, massa," stammered Sam, as he gasped for breath and rolled his eyes in the direction from which he came; "I jis come back to ax you ef it wud be perlite foh dis niggah to shoot dat bar dat chased me befo' gibbin da fust chance to da president of da United States?"-Harper's Weekly.

Keeping Ahead of Nipper.

"Yes, Nipper's a good one," said Mason, trying to speak coolly of the bullterrier at his heel. "My wife and I are awfully fond of him, but we don't make fools of ourselves over him as some folks do over dogs that are not a patch on Nipper."

"He looks all right," said Rand, with as much warmth as could be expected from a man whose interest is in tumbers and pointers.

"He is all right," corrected Mason. with dignity. "Why, that fellow knows everything you say to him, in German and French as well as English. We've proved it again and again, and only last night my wife said that if we wanted to keep anything from him we'd have to learn a new language. "I think," concluded Mason, gravely,

"that we shall take up Esperanto when the evenings get longer."-Youth's Companion.

"Baby" McKee in Society. I see that "Baby" McKee was one of the guests at Miss Roosevelt's comingout party at the White House, and am reminded, as many times before, that time sure do fly and that it is better (or worse) than twenty years since Mr. Benjamin Harrison McKee was answering "Goo!" to the name of "Baby" and his stiff-necked old grandpa ruled in the White House.-Beau Broadway in the New York Telegraph.

Don't Hurt the Birds.

Every farmer and fruit grower should be interested in the work of protecting the native birds. They represent valuable assistants in agricultural and horticulture whose labors cannot be duplicated by the introduction of any other forces. They destroy the insects and keep the fruit trees clean of pests that otherwise might ruin the annual harvests. They lend assistance just at the proper time and enable the soil tillers to get good returas for their labors.—Seattle Post- circus daring and the circus muscles

END OF THE WORLD Acknowledged by the World Specialists of Renown

The People of the Northwest Have Been Astonished By These Men's Bloodless Cures and Bloodless Operations.

FORM WITHOUT THE SUBSTANCE. Somewhat Mean Comparison Made by Profane Man.

The proprietor of a certain hotel in Maine is not only one of the kindest and hest hearted men but also one of the most profane. He swears without knowing it and means no offense. He spends but little time in the office and is practically unknown to many of the guests. One day, however, he was in conversation with the manager when a lady interrupted them.

"I want my room changed," she said. "It is on the side overlooking the kitchen, and I am annoyed by the swearing of some man down there every morning. I am a church womand and will not stand it another day." The remarks were addressed to the manager, for she did not know the

proprietor or that the one who did the swearing was he. "Do you happen to know who that man is?" he asked, before the man- "We never had anybody else begin ager could reply.

"No, I do not," she answered. "Well, I do," the proprietor continued; "and he doesn't mean any more when he swears that you do when you of it-preserving order in that schoolget down on your knees to pray."- room."-Youth's Companion. Lippincott's.

Circus Daring Due to Heredity. Alfred T. Ringling tells me that nine-tenths of the leading performers before the public can be included in 30 families. As sharply defined as any old English lineage, they can be traced backward in some instances more than two centuries-each generation accepting without question the heritage of spangles and tights. The and the circus restlessness have de cace will never de any.-Johnson

scended from father to children and thence to children again. The thrill of the sawdust ring has got into the blood. From the parent trunk branches have crossed and crisscrossed until as in the case of the Clarkonians and the Demotts and the Siegrists Florenzes, great circus lines have been built up and guarded with the zealous care of a royal genealogy.-Hugh C. Weir, in the Bohemian.

A Disciplinarian.

Miss Hobson was most popular with the two young and unmarried memhers of Centerville's school board. They did not propose to have any change of teachers in District Number Three.

"Do you think Miss Hobson pays quite enough attention to discipline?" suggested one of the elderly, married school committeemen one day. "Discipline! Why, of course she pays a great deal of attention to it."

asserted Ed Porter, hastily. to pay as much," said Henry Lane. "Why, one afternoon I was in there at Number Three, and Miss Hobson spent the whole time-every minute
