SPECIAL AGENT PEPPER PREPAR-ING A REPORT.

Tariff Bill Will Continue to Rraive Attention in the Senate All This Week.

Washington.-A report which constitutes an important contribution to the current discussion of the proposed income tax is made to the bureau of manufacturers of the Department of Commerce and Labor by Charles M. Pepper, the special agent who has been investigating fiscal affairs in Eu-

Mr. Pepper says that for the fiscal year ending March 31, 1909, revenue from the income tax in Great Britain was \$165,000,000. This tax in 1908 was the greatest single source of revenue, exceeding the excise imposts by \$1,500,000 and the customs receipts by

\$23,000,000. It is explained in the report that the tax is imposed for every 20 shillings of the annual value of certain profits which are set forth under the various schedules comprising the source of income. Two-thirds of the tax is paid indirectly. Collections include the tax on land paid through the tenants, on dividends paid from on the 4th of July. the offices of public companies and on consols paid through the Bank of Eng-

land. The tariff bill will continue to receive the undivided attention of the senate during the present week. Ostensibly the amendments to the different schedules will be before the senate, but there will will doubtless be much general discussion of the whole tariff question. The bill has aroused a degree of opposition among republican senators which had not been counted upon, and while the finance committee is still confident that it will be sustained in its position, there is little effort on the part of its members to conceal the fact that they are annoyed over the situation because of the delay, if for no other reason. The general opinion is that in the end the committee will prevail, but every turn in the pathway of discussion opens up new vistas, so

that apparently the end is still far off. There is talk of lengthening the hours of daily sittings, but there is to a still greater degree the opponents of the measure and of thus creating delay rather than expediting the measure. No announcements for the delivery of prepared speeches have been made, but this circumstance is nowhere regarded as an indication that the supply of oratory has been

exhausted. In the house the Philippine tariff bill will be reported Monday and there will be an effort to consider it Thursday. If there should be objection on account of the absence of a quorum recess will be taken until Friday when the house will proceed with the discussion of the bill. There is little or no opposition to the bill.

NEW SULTAN TAKES SWORD.

Mehmed V. Will Be Girded with the Weapon of His Authority. Constantinople.—Reviewing stands are being put in the principal streets of Stamboul in preparation for the procession Monday following the girding of the sword upon Mehmed V. This ceremony, which corresponds to that of coronation, will take place in the Mosque Avoub, the single mosque in Constantinople which Christians are not allowed to enter or even congregate about the entrance or courtyards. It will last but a few minutes and no foreign representative will witness the ancient rite of the spiritual power consigning the power to the consul. A stand has been erected for the diplomatic corps and distinguished foreigners some eight or

ten blocks from the mosque. Union Pacific Earnings. New York.—The Union Pacific road for the full year is likely to have a surplus over all expenses and charges of \$21,000,000, which is equivalent to a dividend of 10.73 per cent on the common stock. To this must be added about \$18,000,000 received by the road in dividends from other companies in

which it holds stock, so that its full earnings for the year will be equal to about 20 per cent. To Hold Conferences. Chicago.—Secretary of Agriculture Wilson arrived here Sunday an on Monday will begin conferences with the government meat inspectors from all sections of the country. They will

discuss conditions in the packing houses. Judge William Penfield Dead. Washington.-Judge William Pen field, former solicitor of the department of state and an authority on

international law, died here Sunday.

Open to Settlers May 22. Washington.-Large areas of valuable farming lands in one of the most beautiful valleys in the west, a region described by government experts as of wonderful scenic grandeur, of fertility and free of cyclones, blizzards or other severe storms, will be opened to settlers on May 22. The lands are situated in the Shoshone irrigation project, which eventually will reclaim 150,000 acres east of the Yellowstone

National Park in northern Wyoming.

Settlement will be under the home-

stead law.

Back to Their Posts. Manila.—A unique legislative in cident was terminated on Sunday by the return to the Philippine assembly of ten members of the progressita minority, who had been on strike for a month. They withdrew from the house in a body when the Payne tariff bill was under discussion several weeks ago and refused to attend the sessions or perorm any legislative work. The majority still had a quorum and continued to hold daily sessions, but did not in the meantime take up any important measures.

NEBRASKA NEWS AND NOTES.

Items of Interest Taken From Hers

The Midwest Life. A few evenings ago the president of the Midwest Life was gratified to answer an inquiry by 'phone as to whether or not his company wrote women. An agent of an eastern company had been trying to sell the wife of the questioner an endowment policy. The husband was a believer in the "Stand up for Nebraska" idea in life insurance as well as in other things, and when informed that the Midwest Life issued insurance on women an appointment was readily made for a representative of the company to call. These are the acts which are appreciated as it is the practical standing up for Nebraska institutions which counts. Surely the people of Nebraska are under no obligation to help make the big eastern companies bigger. That is something

which can be left to their own people. The Midwest Life issues all of the standard forms of life insurance policies at reasonable rates. Write for particulars. Home office 1007 "O' street.

PLANNING WORK FOR ASSESS-MENT OF THE SAME.

Forest Reserve Fund Apportioned .-Other Matters of Interest at the State Capital.

Governor Shallenberger, Land Commissioner Cowles and Secretary of State Junkin met to plan the work of assessing railroad property, both for state purposes and under the terminal tax law for the benefit of cities and villages. Tax Commissioner Scribner of the Union Pacific was present, accompanied by his assistant, R. J. Clancy. The board decided to meet again at which time railroad representatives can have a hearing if they desire it. Other opportunities will be given for hearings. The railroads probably will be represented. Some of them desire to be heard as to values for general taxation and values under the terminal tax law.

Forest Reserve Fund. State Superintendent Bishop has apportioned the forest reserve fund that was in the state treasury May 1 to the counties of Nebraska that are entitled to the money. The fund amounted to \$2,349.77. It is derived from funds set aside by the government for counties in which national forest reserves are situated. The total number of acres sharing in the apportionment is 589,002.93, and the rate per acre is a fraction less than 4 mills. The counties sharing, together with the number of acres in each and the amount due the county, are as follows: Blaine, 6,273.16, \$25.03; Cherry, 123, 297.10 acres, \$491,87; Grant, 149, 608. 85 acres, \$28.76; Thomas, 77,021.09 acres, \$307.27.

Sheldon's Appointments Upheld.

The validity of ex-Gov. Sheldon's appointment of Judge Dean and Judge Rose to the supreme bench is upheld in a decision handed down by the suthree years old May 1, 1909. It has preme court. Judge W. D. Oldham and Judge J. J. Sullivan, appointed by Gov. shallenberger, are thus barred from accepting their appointment. Judge J. J. Sullivan had not filed an acceptance. The validity of the aplaborer, over 50 years of age, died of pointments of the two governors, the fear that if this course is resorted to exposure, the result of a mishap, it is court decreed, hinged on the validity decreed, in substance, that the state canvassing board should canvass the returns on constitutional amendments.

Appeal to Supreme Court.

A judgment for \$12,750 damages given by the district court of Douglas county against the Omaha street railway in favor of Emma Hoskovec for personal injuries, has been appealed to the supreme court. This makes the second appeal the street railway company has taken. The plaintiff alleged that she was injured September 22, 1902, by the starting of a car before she had an opportunity to dismount. Her head struck the pavement, her lower jaw was dislocated and fractured and she alleged that her injuries were permanent. She filed suit for \$25,000 damages.

Denies Habeus Corpus.

George C. Loomis and nomer M Cain of Hooker county, charged with buying horses in Cherry county, knowing the same to have been stolen, with intent to defraud the owners of the horses, were denied a writ of habeas corpus by the supreme court. Homes J. Sullivan of Broken Bow appeared as attorney for the prisoners who were brought to Lincoln by the sheriff of Cherry county. County Attorney Tucker of Cherry county and Assistant Attorney General Ayres appeared for the state to resist the granting of the writ. Mr. Sullivan based much of his argument upon the plea that it is not a crime to buy stolen horses in this state if the animals have been stolen in another state.

The Case Dismissed.

The injunction suit started by the city of Ashland against the Burlington in 1908 was dismissed by the railroad. The city tried to compel the railroad to maintain an open crossing over the tracks at Ashland. The suit was settled by the construction of a subway.

Civil Service Examinations. The United States civil service commission announces the following examinations to be held at Lincoln, Grand Island and Omaha: May 19, apprentice plate cleaner, transferrer, engraver; June 2, game law clerk (male), bureau of biological survey; June 16. clerk, forest service: June 16. medical interne, government hospital for insane. AN INTERESTING PAINT TEST

There is a very simple and interestng chemical test by which to detect impurity in paint materials. Thousands and thousands of people, all over the country, are making this test. It is a sure way to safeguard against the many adulterated white leads which are on the market. Any one can make the test-all that is needed is a simple little instrument which may be had free by writing National Lead Company, 1902 Trinity Building. New York, and asking for Houseowner's Painting Outfit No. 49. The cutfit includes also a set of color schemes for exterior or interior painting or both, if you wish, and a book of specifications. No houseowner should make any arrangements for

painting till he gets this outfit. One can't expect a satisfactory painting job without pure white lead. There is a way to make sure you're getting a oure white lead-without testing it. See that the keg bears National Lead Company's famous Dutch Boy Painter trademark which is a positive guarantee of purity. Your dealer probably has this white lead. Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Deflance Starch, as it can be applied much more thinly because of its great-

er strength than other makes. The Great Necessity.
