**Straw Used for Matches.**  
The straw of various grasses and cereals has been tried and found suitable for wood in making matches. The straw is cut into two-inch lengths by machinery, winnowed to obtain uniform size, and then boiled in paraffine, dried and dipped into the mixture of chlorate of potash, gum arabic, etc. for the inflammable tip. The process should, if adopted on a large scale, obviate the use of wood and also give an improved match, with the advantages of a wax veta, at a very small cost.

**Tip to Local Bachelors.**  
Coming down to the office at an early hour the other morning the Review man noticed one of our most popular and highly educated young ladies busily engaged in carrying in and stacking the winter supply of wood. And she didn't seem to mind a bit who stopped and rubbed at the unusual sight. The chap who gets that girl to trot with him along life's stormy pathway will be in big luck.—Jefferson (Ore.) Review.

**Idleness is an Atrophy.**  
The prosperity of a people is proportionate to the number of hands and minds usefully employed. To the community, idleness is a fever, corruption is a gangrene and idleness is an atrophy. Whatever body or society wastes more than it acquires must gradually decay, and every being that continues to be fed and ceases to labor takes away something from the public stock.—Dr. Johnson

**Real Deep Sea Fish.**  
In the beginning of the last century halibut emigrated to deeper and deeper water, until they are now caught in depths of 150 to 250 fathoms, in deep sea valleys. Halibut capture cod by stunning them with strokes of the tail. The roe of a 250-pound halibut weighing 44 pounds, was over two feet long and contained more than 2,000,000 eggs, says Prof. David Starr Jordan.

**Horses and Mules**  
I have a car of choice broke horses, and mules, and will sell them reasonable.  
I will also buy horses and mules.  
**JOHN RANDALL.**  
One half mile northwest of Columbus.

**An Olden Jest.**  
"Notice the footnote at the bottom of the page," laughed the court fool as the royal attendant's shoes emitted a squeak.—Jack O'Lantern.

**Obey God's Call.**  
Nothing is really lost by a life of sacrifice; everything is lost by a failure to obey God's call.—H. P. Liddon

**Art's Reality.**  
Ruskin: Great art is nothing else than the type of strong and noble life

### SUPERVISORS' PROCEEDINGS.

Columbus, Nebraska, September 15, 1909.  
The board of supervisors of Platte county, Nebraska, met in adjourned session at 2 o'clock p. m.  
Hon. J. F. Schure, chairman, and John Graf, clerk.  
Roll called and following members present:  
Supervisors Clother, Goetz, Peterson, Pollard, Schwarz, Smith and Chairman Schure.  
Moved by Supervisor Pollard that the reading of the minutes be deferred and the hearing of testimony relative to the petition of J. C. Dawson and others for the location of a public road commencing at the southwest corner of section 11, town 17, range 2 west and running thence due east on the section line one mile and the remonstrance of Daniel Murdoch, L. N. Hitchcock and others against the establishment of the proposed line of road be now taken up. Motion carried.

Attorney J. D. Stires now addressed the board in support of the opening of the road, followed by J. Dawson, who asked that said section line be established as a public highway for the reason that it will give to the community a better and shorter road to market.  
Fred Schupbach, in his address to the board, said that he had used the road, but that the same is closed since May and that he must use the same for his children to go to school.  
L. N. Hitchcock said that he is a remonstrator and that it is a disadvantage to have the road opened and that he can not see any benefit to the public by doing so.

Daniel Murdoch, in his address to the board, affirmed that for the last fifteen years the said section line was not used as a public road and is not used as a public road now and the opening of the same would not be a benefit to the public.  
At the close of the addresses the entire matter was, on motion, referred to the committee on roads and bridges, including Supervisor Pollard.

The contract between the counties of Polk and Platte and the Nebraska Construction company for the construction, erection and completion of a wagon bridge across the Platte river, near Duncan, Platte county, Nebraska, was now presented and read, on motion, approved and ratified by the board.  
The petition of F. W. Edwards and others to sub-divide St. Bernard township into two road districts and the petition of Jacob Korth and others to sub-divide the same into four road districts, and also the petition of Jacob Krebs and others to sub-divide Humphrey township into two road districts were presented and read, on motion, referred to the judiciary committee.

County Surveyor R. L. Rossiter presented the survey of the "Olsofka Road," in Butler township, the "Eber Road No. 2" and the "White Road No. 2," in Columbus township, the change in the "Lawn Road" in St. Charles township and the alteration of the "Stearns Road" in Humphrey township, which were, on motion, approved by the board.  
The bids on file with the clerk for the delivery of coal at the court house needed by the county the coming year were now opened and read.  
All bids being for the same amount, it was moved by Supervisor Clother that the purchasing agent be directed to buy the necessary coal in open market. Motion carried.

All bills on file with the clerk were, on motion, referred to appropriate committees.  
The proceedings of the board of supervisors of the special session of August 24th, 1909, and of the session of August 25th, 1909, were now read and, on motion, approved by the board.  
Moved by Supervisor Pollard that the board of supervisors now adjourn for committee work until 9 o'clock a. m. tomorrow. Motion carried.

The board of supervisors, pursuant to adjournment, met at 9 o'clock a. m. Hon. J. F. Schure, chairman; John Graf, clerk, and all members present.  
A remonstrance having been filed against the establishing of the "Guter Road," commencing at the northeast corner of section 29, town 17, range 1 east, and running thence due south on section line three-fourths mile, the matter came now on for hearing.  
Charles Louis, Pier Speicher and Peter Speicher addressed the board of supervisors in support of the remonstrance and Albert Stenger and George Galley in support of the prayer of the petitioners for the opening of the proposed line of road, at the conclusion of which the matter was, on motion, referred to the committee on roads and bridges, including Supervisor Smith.  
The petition of J. C. Dawson and others for the location of a public road commencing at the southwest corner of section 11, town 17, range 2 west, and running thence due east on section line one mile, was reported back with following majority report: We, your committee on roads and bridges to whom was referred the within petition would respectfully recommend to deny the same, for the following reasons, viz: 1st. That under the provisions of our statutes the public does not own nor can secure right-of-way for proposed road, except by paying for same. 2nd. That many of the petitioners are under the impression that the public is entitled to free right-of-way for same reason of public usage which is incorrect in this case. 3rd. That the interest that should be secured by the location of said proposed road would not justify the necessary expenditure of public money.

M. E. CLOTHIER, J. GOETZ, W. M. POLLARD.  
The following minority report was submitted: I recommend that the proposed line of road as petitioned for by J. C. Dawson and others be opened.  
LOUIS SCHWARZ.  
Moved by Supervisor Clother that the majority report be adopted. Motion carried. Supervisor Schwarz requesting that his vote be spread upon the record as voting in the negative.

The following report was submitted: To the Board of Supervisors: We, your committee on judiciary to whom was referred the petitions from St. Bernard and Humphrey townships for the re-subdivision of said townships into road districts, would recommend the following:  
St. Bernard Township. Road district No. 37 to include sections 1, 2, 3, 10, 11, 12, 13, 14 and 15, in town 20, range 3 west.  
Road district No. 38 to include sections 4, 5, 6, 7, 8, 9, 16, 17 and 18, in town 20, range 3 west.  
Road district No. 39 to include sections 19, 20, 21, 22, 23, 30, 31, 32 and 33, in township 20, range 3 west.  
Road district No. 15 to include sections 22, 23, 24, 25, 26, 27, 34, 35 and 36, in town 20, range 3 west.

## HOT WATER HEATING

### For the Farm Home

All the comforts of town life can now be had on the farm.  
Heat the house with hot water, and get the maximum amount of comfort at a minimum cost. The day of the base burner in the country home is rapidly passing.

**WHY NOT HAVE THE BEST**  
The time to install a heating plant is from now on.  
Once installed, they last a lifetime.  
Come in and let us tell you about it, or drop us a card stating what you want.

**A. DUSSELL & SON**  
Plumbing and Hot Water Heating  
COLUMBUS, NEB.

Respectfully submitted,  
W. M. POLLARD, J. GOETZ, M. E. CLOTHIER.  
On motion same was adopted.

Moved by Supervisor Peterson that Sam Connelly be and is hereby appointed road overseer for road district No. 35, St. Bernard township. Motion carried.  
The following bills were, on motion, allowed and the clerk directed to issue warrants in payment of same on the 1909 county general fund:

**Says McGowan:**  
"Niver mind th' has-beens, an' th' goin't-be's. Th' man th'at kapes his ar-rms an' head at work, is."—Cleveland News.

**Said Uncle Elias:**  
"There may be room enough at the top, but the crowd en route keeps a good many fellers from gittin' there."—Los Angeles Express.

**Horrors!**  
New Jersey inventors, abetted by local capitalists, have devised a fire-cracker made entirely by machinery, at the rate of 36 a minute, at a cost of production less than the import duty on Chinese firecrackers. "No human hand," we are told "touches the cracker from the beginning of its manufacture to the end." It is perhaps too much to hope that no human hand shall touch it afterward. Doubtless many will, and we shall begin to hear the result on the day after July 4.—Boston Transcript.

**The One Exception.**  
"Isn't your climate rather changeable?"  
"Yes," answered Farmer Cortsosel. "I reckon we have about every kind of weather there is, except good weather."—Washington Star.

# The Richest Land

## Not under cultivation today

Is that portion of Southern Florida near the Southeast coast of Florida, north and west of the city of Miami, and it is the purpose of this advertisement to truthfully set forth the climate, resources and advantages for settlement of this region, which is claimed by the most noted experts to be the richest tract of land to be found in the United States, and some have gone so far as to say, in the world. With a charming climate and at the very doors of the world's best markets, nothing like it can be found on this continent today. There is now offered for sale a tract of 180,000 acres of this fine land. This magnificent property, large enough for 12,000 farms and homes, is being given away to 12,000 persons who apply for farms before they are all sold. Remember that while they last.

# \$240

## Payable \$10 a month

# Buy a Farm and a Lot

### SUB-DIVISION

- 2 Farms of 640 Acres each
- 8 Farms of 320 Acres each
- 20 Farms of 160 Acres each
- 100 Farms of 80 Acres each
- 250 Farms of 40 Acres each
- 3,620 Farms of 20 Acres each
- 8,000 Farms of 10 Acres each

In addition to the farm, each purchaser is given a business or residence lot in the town to be established on this land.

These lands are handled by the same men who handled the Lake View, Oregon, proposition. Ask those who invested in the Oregon proposition for their opinion of it.

**Enjoyed Their Cartoons.**  
The collections of caricatures made by Prince von Bulow, says the Borsen Courier, will be continued notwithstanding the retirement of Von Bulow from office. Years ago he gave orders to several agencies to collect for him all papers, foreign as well as German, which contained caricatures of himself. These have been sent to him regularly, and after careful examination they were turned over for preservation. Many of the most notable cartoons in the collection, which has already reached the fourth great volume, have margined notes by the ex-chancellor, but nowhere is there any comment to show that the cartoons in any way displeased him. The German emperor has a similar collection of caricatures of himself, and when he saw the Von Bulow collection recently he said it was "almost as large, but not quite as funny," as his.

**Bernhardt's Latest Feat.**  
One had thought that it was impossible for Mme. Sarah Bernhardt herself to beat her own feats of energy, but she has just surpassed even her own records. She has come back from a tour of 21 days in the provinces, during which she actually played "Dame aux Camelias" on the 21 successive evenings. How many times she has by now died of consumption toward midnight as Marguerite Gautier, even she probably can no longer count. During her latest tour she traveled by motor car throughout, and never set foot in a railway carriage. When next she starts on a circuit of Europe and of the globe she thinks of journeying by the same means wherever possible. For the present she is off to her cast of Belle Isle, on the Brittany coast, for a few weeks' rest, if she ever does rest.
