EXCHANGES

LINDSAY.
Undoubtedly the worst fire in the history of Lindsay occurred Tuesday morning when the entire building and stock of the Winkler saloon went up in smoke. The total loss on the building, stock and fixtures is estimated at about \$10,000 with \$3,000 insurance. The Lindsay opera house was located on the upper floor of this building and it was the only public hall in town. This leaves our city in want of an opera house. Both the M. W. A. and E. N. A. lost all their paraphernalia in this fire.

ALBION.
Albion seems to be experiencing an egg famine just at present, the produce dealers being compelled to ship in from outside towns. The prices resemble very much those asked in the cities.

H. O. Young, a farmer living ten miles southwest of Kimball, was almost instantly killed yesterday by falling from a heavily loaded wagon. The wheels passed over his body. Mr. Young was a homesteader who moved here nine months ago from Albion, Neb. He was a member of the Modern Woodmen and Highlander lodges.

BELLWOOD.
The women would be thankful for a good wash day, something they haven't had for some time, and we all need clean clothes.

Frank Beech, who has been in the sanitarium at Milwaukee for the past three months taking medical treatment, returned to his home in Bellwood the latter part of last week somewhat improved in health.

Mrs. P. N. Meyersburg was taken to the hospital at Columbus on Monday and will be operated on today (Friday). Mrs. Meyersburg has a host of warm friends on the valley who sympathize with her during her illness.

Miss Barbara Belsley formerly of Bellwood, but now of Omaha, is reported very ill with typhoid pneumonia at the residence of her parents. It is also reported that Miss Hattie Ren, another Bellwood girl is very ill with yellow fever in Texas.

PLATTE CENTER.
A card from John Greisen informs us that he has changed his location, from Portland, Oregon, where he has been for several years, to Abbeotest, Wash.

Mrs. Ed Higgins returned home from Spalding last Friday. She reports having met a number of former Platte county people, and they all evidently are enjoying health and prosperity.

A horse which Fred Zing was riding fell Tuesday evening and caught one of Fred's legs under him, but except some bruises and good shaking up which confined him to the house a day or two no damage was done.

Fred Goering had something of an ex-

EXCERPTS.

From the Democrat.
Mrs. Fred Ebbhaus went down to Columbus this week and Tuesday afternoon submitted to a surgical operation at St. Mary's hospital. Mrs. Ebbhaus, her sister, went down to Columbus to be present at the operation.

Martin Rihnhart came up from Columbus Monday evening to see his good friend F. M. Cookingham before he was laid in his last resting place, and those acquainted with the circumstances know that if ever a mortal soul had a real friend, Rihnhart had one in Mr. Cookingham.

A new disease among horses seems to be prevalent in some of the adjoining counties which is baffling the treatment of veterinarians. Up in Antelope county, according to the Neligh Leader a number of horses have died from this new disease. The horse doctors claim to have never seen anything like it before. We have not learned whether or not any horses in Platte county have the disease or not.

Mr. and Mrs. Andrew Batliner returned home last Friday evening from a visit of several months with friends and relatives in California and Washington. Mrs. Batliner's health became quite poorly while out there so it was thought advisable to return to Nebraska, otherwise they would have remained there all winter. They report all former Humphrey and Platte county people living in California and Washington as getting along nicely. Mr. Batliner says as a real healthy place to live there is nothing that will beat good old Nebraska.

Wm. Meister, a former resident of Humphrey and Cornelia, but who moved from here to Michigan a few years ago, died last week at his Michigan home and his body was shipped to Humphrey for burial, arriving here Tuesday night. During his residence here, Mr. Meister lost his wife and a son who are buried in the Humphrey cemetery beside whom he was laid to rest Wednesday morning. For a number of years he was section foreman at Cornelia. He resigned this position and moved to Humphrey where he resided until the death of his wife, then he went back to his old home in Michigan. The funeral was in charge of members of the Workman lodge of which he was a member.

GENOA.
From the Leader.
The weather has put the cattle feeders up against it in this section. Only a portion of the corn is harvested and the roads are in such condition that it is almost impossible to haul either corn or hay, and unless there is a change in conditions the cattle on feed will all have to be shipped out.

An exchange gives this advice: Many a young woman who deserves a good man for a life companion, has jumped in at a tender age and married a Johnny and gone through life embarrassed the rest of her days. Johnny is alright as an ice cream boy and as a slot machine with which to get chewing gum and bonbons, but when it comes to measuring up in after years with the man who do things, and whose wives make up the budget of satisfied ones, he is down and out before the race starts. Girls, if you must marry, and you must, if you would be happy, be sure and marry a man or at least what is going to be one later on.

An exchange gives this reasonable and sensible remark upon the subject: The farmer who is too poor to buy a pair of blankets for his team, with hogs at 87 and milk at \$1.50 a hundred, ought to try doing the chores in a union suit and see how he likes it. The man who will allow a faithful team to stand for hours in the teeth of a bitter wind, while he hugs the grocery store stove and settles the tariff questions, has a disposition which would make a hyena turn green with envy. We have seen men who had a plenty of time to gabble about Joe Cannon and the steel schedule, but who were too busy to slip a couple of blankets on a shivering team. If there is a hell, the man who allows his team to freeze to the pavements on a winter's night will be called upon to do the jig at the tail of a toasting fork that will last 150,000 years.

MOROE.
From the Republican.
Miss Minnie Nunnally was a passenger to Columbus Thursday.

Dan Wilson and daughter Miss Alice were passengers for Omaha Monday.

Mrs. Fred Dickinson is enjoying a visit from her sister, Miss Walker, of Ogallala.

Chester Magill who has been to Columbus for the last few days returned home Tuesday.

The Mail Carrier on Route 2 has made her full trip almost every day in spite of roads and weather.

Lin Riley and Harry Hill returned home Saturday from Julesburg, Colo., where they have been looking at land.

Lee Gerrard left here Monday as advance agent for the Idler Stock Co., who played here Monday and Tuesday evening.

J. G. Read went to Omaha Monday to attend the Corn Show and will be accompanied home by Mrs. Leon and his little daughter who have been visiting there.

The cold weather and storms of the last ten days have almost stopped trade, and the weather—fifteen degrees below zero—is the coldest at this time of the year, for over twenty years. The roads which were in an almost impassable condition before the freeze, will soon be in good condition for traveling, and for the present sleighing is fairly good.

Louis Bruns, a son of Gerd Bruns sustained a fall while at school Monday and a fracture of the skull in the result. Louis is suffering a great deal but it is hoped he will come out alright.

Alfred Leesebach went to Omaha Wednesday morning and on his return home that evening he was accompanied by his daughter, Olga, who has been receiving treatment for nervous troubles in a hospital in that city for the past six weeks.

A wedding of considerable interest to people of this community occurred at Columbus on Wednesday, when Judge Ratterman read the words which united Miss Alvina Marth and Bert Schurr. Mr. and Mrs. Schurr returned from Columbus Thursday and will establish their home on the old Schurr farm, northwest of town. They are deserving of the richest blessings of life and we predict for them unlimited happiness and prosperity.

SCHOOL BOY WANTED.—I have a permanent position for a bright, energetic school boy. The right boy can make from \$50 to \$800 or more a week, without interfering with his school duties. Francis W. Echols, 618 West 15th Street.

A Hint From Old Santa.

As to what will be best appreciated by rich and poor alike at the glad Christmas season should surely worth considering. Old Santa says: Buy a sack of WAY UP FLOUR for yourself—for someone else as well—and make a lot of people happy, for WAY UP FLOUR is the best made.

COLUMBUS ROLLER MILLS

EYE OF THE CAMERA.

The Longer It Looks The More It Sees Within Certain Limits.

Often the eye of the camera will decipher documents of which the writing had been substantially obliterated by age, says a writer in Van Norden's Magazine. I have successfully copied with the camera the utterly faded photograph of a classmate of forty years previous.

Changes in the pigment of the skin, undiscovered by the eye, appear with distinctness on the sensitive plate, and it is said that ample warning of approaching disease has been thereby given.

The camera takes pictures of subjects which cannot be made to appear on the ground glass and of those which the human eye can penetrate space no farther in an hour than in a single instant. Yet the eye of the camera will gaze into the sky for hours, looking deeper and seeking more with each second that passes.

Through this attribute of the camera a great chart of the heavens is now being made. In this work distinguished astronomers and photographers throughout the world are co-operating. Yet not one in a hundred of the stars already plainly pictured by them was ever seen by the unaided eye of scientists.

A Verbal Spedometer.
Every calling has its technical vocabulary, and those who are familiar with it are often surprised and irritated at the difficulty other people have in understanding it. A writer in the New York World tells of an old horseman in Maine who had run over a man and was being sued for damages.

The court asked the defendant if he was driving fast. He answered, "I was going a pace." The court then said, "Now, kindly tell the gentlemen of the jury just how fast you were going."

"Well," said the defendant, "I reckon I was going a clip."
"Well, you tell the jury how fast a clip it is."
"Well, it's going a ditz."
"Now, will you tell the jury how fast a ditz it is?"
"Well, a ditz is a ditz. Anybody knows what a ditz it is?"

COLUMBUS

MEAT MARKET

We invite all who desire choice steaks, and the very best cuts of all other meats to call at our market on Eleventh street. We also handle poultry and fish and oysters in season.

S. E. MARTY & CO.

Telephone No. 1. — Columbus, Neb.

Horses and Mules

I have a car of choice broke horses, and mules, and will sell them reasonable.

I will also buy horses and mules.

JOHN RANDALL.

One half mile northwest of Columbus.

WANTED

The right party can secure an excellent position, salary or commission for Columbus and vicinity. State age, former occupation and give references. Address LOCK BOX 428, Lincoln, Neb.

THEY INJURE CHILDREN.

Ordinary Cathartics and Pills and Harsh Physic Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given, except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They cause griping, nausea and other distressing after-effects that are frequently health-destroying and a life-lasting annoyance.

We personally recommend and guarantee ROLLER'S as the safest and most dependable remedy for constipation and associate bowel disorders. We have such absolute faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Roller's Orderlies contain an entirely new ingredient which is odorless, tasteless and colorless. As an active agent, it embraces the valuable qualities of the best known intestinal regulation tonics.

Roller's Orderlies are eaten like candy. They are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness or other undesirable effects. They have a very natural action upon the glands and organs with which they come in contact, act as positive and regulative tonic upon the relaxed muscular coat of the bowels and its dry mucous lining; remove irritation, overcome weakness, tone and strengthen the nerves and muscles, and restore the bowels and associate organs to more vigorous and healthy activity.

Roller's Orderlies completely relieve constipation, except when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition.

There is really no medicine for this purpose so good as Roller's Orderlies, especially for children, aged and delicate persons. They are prepared in tablet form, in two sizes of packages; 19 tablets 10 cents, and 36 tablets 25 cents. Remember you can obtain Roller's remedies in Columbus only at Pollock & Co's. drug store on the corner.

STENOGRAPHERS' NOTES.

Perfectly Intelligible Only to the One Who Wrote Them.

"My stenographer was taken ill suddenly," said a well known business man the other day, "and as I had dictated some important letters to him which I wanted written at once I took his notebook to a stenographic institution and asked for a man to translate the notes. Judge of my surprise when I was informed that no matter how good an expert a stenographer may be he cannot read the notes of a colleague."

"This is a common complaint of men who know nothing of stenography and have never studied it," said a shorthand reporter recently. "It is true, however, that no stenographer can accurately translate another's notes. This does appear strange, but it must be remembered that stenography is by no means a perfect science. In fact, it is most imperfect, and there is great room for improvement. Therefore every intelligent person who studies stenography after he gets through the rudiments of it begins to improve it in his own way, invents word signs and characters and changes or alters those he has learned. As a result every stenographer's notes are stamped by his own individuality, a mystery to another, and therefore, with the exception of words most commonly used, it would be impossible to read another's notes accurately.—New York Herald.

Might Have Been Worse.
"Poor bye!" exclaimed O'Hara, con-doling with Cassidy, who had been injured by a blast. "Tis tough luck to have yer hand blowed off."
"Och! Faith, it might 'ave bin worse," replied Cassidy. "Suppose O'F had me week's wages in it at the toime."

His Specialty.
"That clerk of yours seems to be a hard worker." "Yes, that's his specialty." "What—working?" "No, Seemng to."—Boston Transcript
