MANY YEARS AGO.

Three wagons freighted with the traps and provisions for individual miners on their way to the Black Hills, passed this city on last Sunday.

We have a splendid country for sleigh riding, but it is exceedingly fortunate for Nebraska horse flesh that we have not got the snow.

Large quantities of tea and silk recently passed over the U. P. road from China and Japan to New York city. It takes less time to make the trip on this road, consequently less risk of damage to goods.

John Tannahill recently took up some soil containing grasshopper eggs, planted corn in it, set it near the stove, watered it and watched developments. He had a notion that the alternate freezing and thawing of the soil had destroyed the "hoppers" but one day after the corn was up about two inches, he noticed some of the little hoppers on the stalks, eating away. On a square foot of land he counted forty-two sacks of grasshopper eggs, averaging fifteen to the sack. Mr. Tannahill says the eggs are only found in hard soil, and are not so universally distributed as some think. We have never known of any hoppers hatched here doing serious damage to crops. When we have been deposited it has been by the migratory kind.

Mrs. William Terrell died at her home in this city Wednesday evening of last week. For thirty-eight years she was a resident of this city. Death was due to paralysis, of which she was stricken the second Tuesday morning preceding. The following mention is taken from the Telegram: "Mrs. Terrell was formerly Mary May Turner. She was born in Cadiz, Ohio, April 8, 1860, and in 1871 came to Columbus with the family of her father, Judge A. C. Turner, one of the founders of the Columbus Journal. She was married to William Terrell August 9, 1900. Her husband and a foster son are the surviving members of her household. She was a sister of J. A. Turner, George W. Turner and Mrs. E. H. Jenkins, all of this city. Mrs. Terrell was a lifelong Christian, having early in childhood identified herself with the Methodist Episcopal church. Her most effective church work was along musical lines. For seventeen years she was a faithful helper as organist and choir leader in the city. In the church and among personal friends she was known as one of the best and most noble women. One who had known her intimately for years voiced this sentiment: 'Too much cannot be said of her life. She was the best woman I ever knew. It is as often said that church people practice one religion in the church, and another in the home. That could not be said of Mrs. Terrell. She was a true church woman, and her faith was her guide in her daily life at home and in society. I can conceive of no higher example of living than that displayed by the good woman who has just passed from among us.' A short funeral service was held at the home Sunday afternoon at 2 o'clock. Rev. Roush of the Methodist church officiating, his very impressive remarks being taken from the fourth chapter of II Timothy, part of 7th and 8th verses, after which burial was made in the family lot in the Columbus cemetery.

"Granstark," the magnificent production under the direction of Messrs. Baker & Castle, which was the hit of last season in New York and Chicago, is taken from George Barr McCutcheon's romantic and thrilling story of a love between a prince and a peasant girl, and the story of the princess he loves, lends itself advantageously to dramatic purposes, and the pretty stage pictures and romantic and heroic spoken dialogue arouse the patriotic pride and quicken the popular pulse even more than the printed words.

Saturday evening of this week Union Camp, No. 134, Sons of Veterans, and Baker Post No. 9, Grand Army of the Republic, will hold a joint installation of officers at their hall. At this meeting the date for the annual encampment of the Nebraska department of the Sons of Veterans will be decided on as the local camp assists in the entertainment and they are consulted as to the time. The state encampment will be held some time in February, and as soon as the time is fixed, Commander Reed will issue orders to the different camps.

Last Saturday forenoon the fire department was called to L. W. Weaver & Son's coal yards, the blaze starting from an overheated stove pipe. The coal shovellers had fixed up a temporary room in the west end of the sheds in which to stay when not at work, and the pipe from their stove, which extended through the roof, became too warm and set fire to the roof. The west end of the sheds was scorched, but the damage was slight.

During the few warm days like last week quite a good deal of snow melted, and the water commenced to rise in the river. At Monroe they had fixed a road for hauling grain across the ice, completing their work Thursday evening, but Friday morning there was so much water running over the ice that it was impossible for them to haul. But the last cold snap has made the ice as solid as ever.

Thursday evening of this week the Columbus bowling team will give their first annual ball in the Orpheus hall. One of the features of the evening will be a bowling match in the hall during the intermission in which the following bowlers will take part: Ed Kavanagh, Joe Gutzmer, Morris Whitmoyer, Jap Nichols and G. J. Hagel. The Orpheus orchestra will furnish music for the occasion.

Hard coal of the nut size, which is used in the ordinary base burner, is a luxury, so far as Columbus is concerned. The first of this week there was less than a car load in town, and as such freight is moved very slowly by the railroads, it is quite likely the present supply will be exhausted before it is received. Dealers report plenty of other kinds of coal to meet all demands.

Lee Besty of Cedar Rapids was in the city Tuesday and Wednesday, a guest of his brother-in-law F. Ed Curtis. Mr. Besty had been to South Omaha with two car loads of stock, and went on to Centerville, Kansas, where he visited ten days with a brother and also visited another brother at Falls City, Nebraska.

Not since the winter of 1890-91 has there been as much snow as this year, so far. This year the snow fell earlier, but a late spring followed. January is starting out with plenty of snow, and may exceed the December record.

While unloading freight Wednesday morning Wm. Terrell had his right leg broken just above the ankle. The accident happened while he was taking a truck load of freight out of a car, one of the boards over which he was wheeling the load slipped, causing it to tip and in some manner the truck struck his leg, breaking it. The company physician was called and Mr. Terrell removed to the home of Mrs. E. H. Jenkins, and the fracture reduced.

Wednesday morning the first of the big compound engines recently purchased by the Union Pacific, reached this city. This engine is numbered 3002 and is practically the same size as the Southern Pacific oil burning engines that passed through here last summer. Besides them the largest mogul engines in use look small, and the new machines will haul a much larger train than the old ones and with much less danger of breaking the couplings.

Work on the addition and remodeling of the Burlington depot is progressing slowly on account of the extreme cold weather, and under favorable conditions it will be at least the middle of February before all changes are completed. In the meantime Agent Reator is doing the best he can under present conditions.

Another high water mark for post office business was made during the quarter ending December 31, 1909, the receipts for this period being \$5,479. To compare this increase in the last few years, this amount is over \$900 more than the entire year preceding Postmaster Kramer's first appointment, which was \$5,183. When city delivery was established, four or five years ago, the receipts for the year were \$10,000. Since that time there has been a steady increase until in 1909 the total reached \$17,000. Business of the local post office is a good indication of the growth of a city, and the showing made for Columbus very gratifying.

The Columbus Hive, Ladies of Macca-bees, elected new officers Wednesday night as follows: Mrs. Jennie Hagel, past commander; Mrs. Carrie Slater, commander; Mrs. Belle Seefeld, lieutenant commander; Mrs. Cora Boyd, record keeper; Mrs. Emma Brock, finance auditor; Mrs. Ellen From, chaplain; Mrs. Ida Jones, mistress of arms; Mrs. Alice Lohr, sergeant; Mrs. Eva Hollenbeck, sentinel; Mrs. Nettie Dolan, picket; Mrs. Henrietta Winlow, chaplain of the guards.

Thursday morning the change in the county officers at the court house takes place, and there are but two this year. H. C. Lehnitz succeeds C. J. Carrig as sheriff, he being the only new official elected last fall. Jerry Orring takes hold of the newly created office of register of deeds, to which he was elected without opposition. County Clerk Graf, Superintendent Leeron and Treasurer Held each succeed themselves, having been re-elected without opposition last fall.

Last week Fred Pratt had about made up his mind to dispose of his Democrat, but when the deal was about to be closed Editor Pratt reconsidered the proposition, and gives his reasons as follows: No. The Democrat has not been sold. We have made this assertion not less than a score of times the past week, and further than this the paper is not going to be sold. We will admit that there was some foundation for talk of this kind for the past couple of weeks but since the deal did not go through and we have had time to take a more sober view of the proposition, we have begun to realize what a serious mistake we came near making. For the coming year we have made arrangement with John Zavall who has practically had the management of the paper the past year, to continue in the same capacity, only that his interests and those of the paper will be more closely identified as we have given him a working interest in the business. We propose to continue adding to the improvement of the paper and we earnestly ask the co-operation of our subscribers and advertising and job work patrons that we may be able to make The Democrat better and bigger than ever. The editor will continue to devote as much of his time as possible to the paper as long as his job of oil inspector continues, then he will get back in the harness and devote his entire time to the business and the progress of the community.

A young man that had been working at E. T. Graham's ranch for several months is now in the county jail at Schuyler, on a charge of forgery. On Saturday last he forged a check to the amount of \$10 here in Creston. This check was cashed by W. J. Lueschen. The young man then went to Leigh where he forged another check for \$20. This check was cashed by a saloon keeper at that place. On both of these checks he had signed the name of E. T. Graham. Shortly after the man at Leigh had cashed the check he began to investigate whether the check was good or not. Finding out to the contrary, he immediately began to look for the young man, and found that he had gone to Clarkson. An officer was sent after him and captured him at Clarkson late Saturday evening and brought him back to Leigh. He was placed in jail until Monday morning when he was given a preliminary hearing. He pleaded guilty, and was taken to Schuyler to await the action of the district court.—Creston Statesman.
