

The interest of society people has been divided this week between one or two social functions of more or less general interest, and the concerts, some of which were notable for their excellence. The Patriarchs dance which was to have been given this week, was

postponed to next Wednesday. It will be a cotillion.

The ladies of the Athenea club gave their second annual banquet at the home of Mrs. Walter J. Lamb on Monday evening. The work of this club for the past year has been of a most delightfully practical character. In their minds eye they left Lincoln for New York; then crossed the ocean to London. They remained two or three weeks in that largest of cities, then on to Edinburgh, through Scotland over to Ireland and are now in France. In all these countries they discussed the points of interest and the cost of living or traveling in them. The first part of the evening was spent in following a spider web up stairs and down until at the end of the silken thread the gentlemen found an Easter egg which they matched with those of the ladies to find a partner for refreshments. After a delicious supper had been served the guests were invited into a curio room where they spent some time in guessing the puzzling subjects before them. Those present were: Messrs. and Mesdames Harry Lippincott, A. R. Taibot, W. S. Hamilton, Holbrook, Gray, L. L. Austin, Raymer, Fawell, Atkinson, W. H. Tilton, Judge and Mrs. Lansing and Mrs. Kate Hurlbut.

The Century club is finishing its work on French history and is already planning for next year's work. It is now proposed to take German history and to make the work extend over two years instead of one. There is no ladies' club that does such systematic work in such a systematic manner as the Century. The membership is also limited and the vacancies are all filled before they really occur.

Sorosis met in a special meeting on Monday at the home of Mrs. W. S. Summers. The session was purely of a business nature. The constitution was revised and many by-laws added. It is expected that the organization will be more effective under the new regime and be conducted in a more parliamentary manner. Sorosis was never in a more flourishing condition than now and but for its limited clause would be one of the largest in the city.

The people of Lincoln have had an opportunity of patronizing home talent this week. Monday night the University Glee club gave to the Lincoln public the privilege of hearing the program

which they will give in the smaller towns in the state the coming week. The audience was comparatively large and the box parties were particularly striking. The lower rows of boxes were taken by the Bata and Sigmund Chi societies and draped in the colors of the two fraternities, while the other boxes were true to the crimson and cream. The program was well given, the chair drill being a special success. The young men thought they scored one against past insults at foot ball when the hero of one song was sent to — Doane. The club, consisting of sixteen members, will visit the following cities next week: Ashland, Seward, Fremont, Columbus, Kearney, Hastings, Grand Island, York, Fairbury, Beatrice and Nebraska City.
