A GREAT COUGH REMEDY.

Perhaps you may think that Scott's Emulsion is only useful to fatten babies, to round up the angles and make comely and attractive, lean and angular women, and fill out the hollow cheeks and stop the wasting of the consumptive, and enrich and vitalize the blood of the scrofulous and anæmic persons. It will do all this—but it will do more. It will cure a

Hard, Stubborn Cough

when the ordinary cough syrups and specifics entirely fail. The cough that lingers after the Grip and Pneumonia will be softened and cured by the balsamic healing and strengthening influences of this beneficent food-medicine, namely, Scott's Emulsion of Cod-liver Oil and Hypophosphites of Lime and Soda.

Refuse substitutes. They are never as good.

THE REVIEW OF REVIEWS

Edited by ALBERT SHAW

THE REVIEW OF REVIEWS

IT WAS in April, 1891, that the first number of the American Review of Reviews was printed. The new idea of giving the best that was in the other magazines in addition to its own brilliant, original articles, took America by storm, as it had taken England—though the magazine itself was not at all a reprint of the English edition. It deals most largely with

American affairs, and is edited with perfect independence, in its own office.

The Review of Reviews is a monthly, timely in illustration and text, and instantly alive to the newest movements of the day, to a degree never before dreamed of. Thousands of readers who offer their commendations, among them the greatest names in the world, say that the Review of Reviews gives them exactly what they should know about politics, literature, economics and social progress. The most influential men and women of all creeds and all parties have agreed that no family can afford to lose its educational value, while for professional and business men, it is simply indispensable. The departments are conducted by careful specialists, instead of mere scissors-wielders, and scores of immediately interesting portraits and pictures are in each number.

All this explains why the Review of Reviews has come to a probably unprecedented success in the first three years of its existence. For 1895 it will be more invaluable than ever.

THE REGULAR DEPARTMENTS

Besides the special articles and character sketches of thrilling interest and timeliness, the Review of Reviews has these regular departments:

The Progress of the World.—An illustrated editorial review of the month's events which thinking, alert men and women should understand in their proper significance and proportions.

Leading Articles of the Month.—This department, and the succeeding one, The Periodicals Reviewed, embody the idea on which the magazine was founded and named. All that is best in the other magazines, American and foreign, is here brightly summarized, reviewed and quoted from.

Current History in Cartoons chronicles the month's history through the picturesque means of the successful cartoons that are appearing throughout the world.

Other departments review carefully new books, give lists and indexes of all articles in the world's magazines, and furnish a terse daily record of current events.
