

Lieutenant Pershing's successor as military instructor at the state university, was named this week. The new appointee is Captain John F. Guilfoyle, Ninth cavalry.

The News stated that Captain Guilfoyle is the first captain ever appointed commandant of cadets. This is an error. It has been the custom to detail lieutenants for this class of detached work; but recently their custom has been departed from. Two captains were assigned to duty of this sort just recently, prior to the appointment in question.

In a city where officers of the regular army are vouchsafed to us in distressingly limited quantities, the few that come to us are rendered particularly important. When a new officer is coming it is something to know somewhat of his personality and history. It is not at all unlikely that certain young women in society are even now speculating as to whether Captain Guilfoyle is married or single. He is married, and is somewhere between 35 and 40 years of age. His regiment has been stationed at Fort Robinson, Neb., and it is thought that he may have been doing duty in the field in the recent scare in the northwest. The captain has a fine military record, and is abundantly qualified to carry on and develop the work so successfully done by Lieutenant Pershing. Captain Guilfoyle is expected to arrive in the city about Oct. 1. Lieutenant Pershing will probably visit Lincoln sometime next month, and may remain until his successor reports for duty.
