Our Crank Hanger Does It

The Ravele Narrow Tread is the easiest running and longest wearing wheel made, because there is from 20 to 30 per cent less pressure on the bearings of a wheel having the balls in the hubs of the cranks and the chain and sprocket wheel rolling between the bearings, thus saving leverage. We back this assertion with

\$1,000 IN CASH.

If you do not believe it examine the Ravele, either theoretically or practically, figure on it, and if you can disprove our assertion we will GIVE YOU \$1,000 IN CASH.
