NEW LACES.

The new laces which we place on sale this season excell in beauty anything ever put before the people of Lincoln. These are but a few of what we have but will give you some idea of what the stock consists of: Oriental, Point, Guipure, Applique, Mechlin, Point De Paris, Torchons, Valenciennes, Flemish, Point DeAngle Terre, Jetted, nets and Chantilly.

EMBROIDERIES.

The largest and most complete line of embroideries in the city of Lincoln may be found here. The people of the city know this, so it will be unnecessary for us to say much about the stock, more than to announce that we will not disappoint you in what we have to offer and the prices at which they will be sold. You are cordially invited to visit us and examine the goods.

NEW SILKS.

The new spring silks are certainly more beautiful in design and color than anything ever offered before. We have a complete and well chosen line and we are sure that after a careful investigation your patronage will be liberal. It has been your good fortune that we have been able to secure the best makes of both foreign and domestic goods.

DRESS GOODS.

This season we are offering in new spring dress goods the largest variety of weaves, colors, combinations of colors and the newest shades. Our line is the largest to be found in the city and we offer these goods to you at the very lowest possible prices. After once looking at the qualities you will appreciate the fact to the fullest extent. You are welcome. Come and see our goods.

LINCOLN, NEB.

ROAD TO

setting; but the observer suddenly imagines himself discerning the suggestion of a face, a figure, a bird or an animal in the shading, drapery or other accessory; then another appears, and still another, until the general effect is strangely imaginative and weird. La Farge delights in such work, but seldom or never has he done so much of it in so little space.

The department of child study will discuss the "Beginning of speech and the training in language," at its meeting today.

The household economic department of the Woman's club will meet Monday afternoon with Mrs. A. W. Field, 1828 N street, when the subject of "Invalid Cookery" will be considered.

The members of Current Events department were interested in a talk which Mrs. Parker gave them on Sven Hedin, the explorer who, in his journey through Asia, experienced hardships of extreme heat and cold, hunger and thirst, unendurable to any but a man with great determination and power of endurance. The regular program was given as usual. These women are informing themselves of the doings of all nations from week to week. Next regular meeting will be at 2 o'clock instead of 3:30, February 12.

The society of the Hall in the Grove

met with Mrs. M. H. Garten on January 23th. Many interesting current events were given at the opening of the meeting. The paper in the course of Italian art now being studied by the club, was an interesting review of the life and works of Michael Angelo read by Mrs. Lindley. The Russian topic was omitted on account of the absence of Mrs. Loveland, but a spirited discussion on China followed, led by Mr. Leavitt, and actively participated in by Judge Hall and Mr. Stein.

A difference of opinion seemed to exist in reference to China's fate—some thought her absorption by more civilized nations would be for her best good; others were of the opinion that the theft of a nation could no more be justified than that of an individual.

A piano solo, a Haydn scherzo, played by Miss Miller, closed the program.

The Lincoln improvement society met in the usual room at the capitol Wednesday morning with a good number in attendance. After approving the minutes of the last meeting the reports of standing committees on school grounds were given. Mrs. H. M. Bushnell, of the Prescott school committee, reported plans for work and said that they were providing decorations for the rooms and had purchased a portrait of Washington. Mrs. Geo. Hibner of the Capitol school

spoke of the work there and of the fine entertainment given by the school by which \$80 was raised for the purpose of adding to the library and purchasing pictures.

Mrs. A. D. Marshall reported that certain unsightly trees at the high school were to be removed. Building is not entirely over there and plans might be hindered by that. Mrs. W. N. McLennan will plan for the Bryant school ground improvement.

Having been appointed committee for the purpose, Mrs. N. M. Richardson had been in correspondence with the authorities in Chicago, Denver, San Francisco and other cities and read some interesting communications from them. The anti expectation ordinance is enforced in San Francisco. Notices from the health officers warning against spit-

ting in the cars and other places are posted in Denver with good results. Copies of the San Francisco ordinance were read. This report was accepted and the committee continued. Mrs. Welch and Mrs. Richardson, as committee on street cleaning, had also visited various parties regarding the refuse cans which the ladies wish to have placed on the streets. After some discussion Mrs. Wheeler suggested that the ladies could place these and give an illustration of economy at the same time. Authority was given the committee to make a bid on the work if they deemed it advisable. The chairmen on the committees on school grounds were instructed to present their plans in full at the next meeting. A suggestion that the curfew ordinance be read in the school's once a week was favorably discussed.

Suited to the Queen's Taste

we don't care a rap for. What we wish to cater to is the tastes, comforts and needs of the ladies of Lincoln. Their wants and tastes are for up-to-date styles and we are equal to the emergency in quality and beauty. Our fine ladies, gents and children's shoes have no corn factories, chilblains or cold feet in them. Our prices cater to your head—our shoes to your feet.

Perkins & Sheldon, 1129 O Street.
