This is an advertisement; read it if you are interested in a better set of teeth than the ordinary rubber plate.

Are you pleased with the appearance of pink rubber gum? Do you feel satisfied with the gum section teeth where the joints show? Continuous gum work or an all porcelain plate overcomes this unnatural appearance of the gum. The porcelain plate is the best made for the following reasons: It can be made to look natural even if the gum shows; the entire plate is one piece of porcelain; is clean and agreeable to the mouth, and is equal in strength to any plate made.

Porcelain for artificial teeth is fused at a high temperature. Dr. Sherwin makes all porcelain work with an electric furnace which insures the best quality of work.

A LITTLE STORY.

BY FLORA BULLOCK.

It was such a very ordinary looking little cup, shaped like a wee bowl and decorated with a common device in blue. But my hostess said that she prized it highly, that it had a funny little history, and that I might sip tea from it and she would tell me the tale.

"Away down the wharf, the Chinese junk was lying at anchor and we wanted to see it; we wanted to see it very much, and though signs of 'no admittance' stared at us all the way, on we went through the dark old wharf sheds. The guards would have stopped us, but we said we were just going on a little way to look around. Finally we came to the fine young officer who was on duty close to the junk, we stated our wishes, plead our cause, and with all the assurance we could muster asked to be shown through the junk. Refuse? He couldn't as an American gentleman refuse two schoolma'ams, voracious for information.

"Ladies, it would afford me great pleasure to escort you, but as I am on duty here, I will call another officer.

"This he did. The gang plank was lowered and we went, not without some fears, into the strictly forbidden ground. We were shown all over the vessel, from the magnificent officers' staterooms to the dirty, ill-smelling hold, where a drove of almond eyes frightened us. The passengers of the junk were the Chinese consul just on his way to Washington with his retinue.

"We escaped from the place in safety, and thought no more about it, until, when we got on the train at Portland a few days later, we found that the private car attached was occupied by the consul from the Flowery Kingdom with all his Ah Sins and Wah Sins around him. Once when I saw them eating and drinking their tea I was so rash as to tell the porter that I wanted one of those cups they were using. And the porter—well, you know the way of porters. The next thing I knew he informed me that they wanted me to come into their car. At last I went. The consul, in his yellow embroidered gown, and all of his party bowed to the floor, and the interpreter explained to me that they really did not wish to present me with such an inferior piece
