The first artist recital of the Matinee Musical season will be given Monday evening, the 27th, by Mr. Max Heinrich, the eminent baritone of the First Congregational church.

The matinee recital given in Steinert hall yesterday afternoon by Mr. Max Heinrich, the eminent baritone, was one of the most enjoyable entertainments of its kind that has been heard here this season. The program was varied and served admirably to bring out all the good points of Mr. Heinrich's voice—its richness, its strength and its compass.—Boston Post.

MAX HEINRICH

The Eminent Baritone, Matinee Musicale Concert, Monday, Nov. 27, Congregational Church. Vocal instructor Chicago Conservatory, Auditorium Building.

The Lincoln club gave one of their delightfully informal dances Thursday night in the Light Infantry rooms. The dancers were Misses Sheldon, Peters, Hughes, Bohans, Peters, Wiloughby, Hughes, Fisher, Frow, Herminghaus, Peters, Condon, Houston; Messrs. Du-Tiel, Plamandon, Hughes, Haschenberger, Leckliter, Fredericks, Stanbro, Lawlor, Herminghaus, Wolf, Lapp, Berndt, Hardin, Wiloughby, Glassman, Googenheim.

The regular semi-monthly meeting of the city improvement society was held Thursday morning in the Union-Commercial club rooms. The committee appointed at the last meeting to confer with the street commissioner concerning cinder walks in the social settlement at 8th and Y streets reported that new cross walks and cinder walks had been laid. The ladies expressed gratification at the promptness with which the work had been done. The secretary upon invitation of the health officer had visited the city dumping grounds and reported that the present method of disposing of the city garbage could be greatly improved. The origin of the exceedingly unpleasant odor which is occasionally wafted across the city was discovered by this visit, and a committee was appointed to investigate the subject more thoroughly and ascertain if a better plan and im-

proved facilities could not be accepted. The reported action of the city council at its last meeting in instructing the city attorney to draft an ordinance permitting grocery stores to remain open on Sunday was strongly condemned, the members feeling that if any discrimination exists between grocery men and keepers of fruit stands that steps should be taken to close the fruit stands. The good reputation of Lincoln's orderly Sundays should not be jeopardized by permitting a change in the present laws.

An informal dinner was given Friday night by Chancellor and Mrs. Bessey for the Chancellor's assistants in the botanical department. The guests were Messrs and Mesdames Roscoe Pound, Clements, Manss, and Rimbach.

Professor and Mrs. Hodgman gave a luncheon Friday for Dr. and Mrs. Curtis, of Chicago.

SWASTIKA.

What is Swastika? It is the latest fad in writing paper. The Swastika is an East Indian mystic figure or symbol of good luck, well known to the Brahmans and Buddhists and frequently employed in the decorative carvings and paintings upon the temples of the east. The word is of Sanskrit origin and signifies happiness, well-being, good luck. The origin of this symbol is wrapped in mystery. No one knows how, when or where it originated. However, it has positively been ascertained that the symbol had its birth in pre-historic times. Its one great point of interest lies in the fact that it is extremely old. Its unquestionable significance as a mark of happiness or well being makes it doubly acceptable to one who is writing to a friend desiring to convey in every possible way that expression of good will which nullifies distance and draws the world together in a feeling of kinship.

This is an advertisement; read it if you are interested in a better set of teeth than the ordinary rubber plate.

Are you pleased with the appearance of pink rubber gum? Do you feel satisfied with the gum section teeth where the joints show? Continuous gum work or an all porcelain plate overcomes this unnatural appearance of the gum. The porcelain plate is the best made for the following reasons: It can be made to look natural even if the gum shows; the entire plate is one piece of porcelain; is clean and agreeable to the mouth, and is equal in strength to any plate made.

Porcelain for artificial teeth is fused at a high temperature. Dr. Sherwin makes all porcelain work with an electric furnace which insures the best quality of work.
