This is an advertisement; read it if you are interested in a better set of teeth than the ordinary rubber plate. Are you pleased with the appearance of pink rubber gum? Do you feel satisfied with the gum section teeth where the joints show? Continuous gum work or an all porcelain plate overcomes this unnatural appearance of the gum. The porcelain plate is the best made for the following reasons: It can be made to

look natural even if the gum shows; the entire plate is one piece of porcelain; is clean and agreeable to the mouth, and is equal in strength to any plate made.

Porcelain for artificial teeth is fused at a high temperature. Dr. Sherwin makes all porcelain work with an electric furnace which insures the best quality of work.

DR. F. D. SHERWIN, Dentist, Room 17, Burr Block.

SWASTIKA.

What is Swastika? It is the latest fad in writing paper. The Swastika is an East Indian mystic figure or symbol of good luck, well known to the Brahmans and Buddhists and frequently employed in the decorative carvings and paintings upon the temples of the east. The word is of Sanskrit origin and signifies happiness, well-being, good luck. The origin of this symbol is wrapped in mystery. No one knows how, when or where it originated. However, it has positively been ascertained that the symbol had its birth in pre-historic times. Its one great point of interest lies in the fact that it is extremely old. Its unquestionable significance as a mark of happiness or well being makes it doubly acceptable to one who is writing to a friend desiring to convey in every possible way that expression of good will which nullifies distance and draws the world together in a feeling of kinship.

This stationery can be had at Rigg's Pharmacy, Funke Opera House, corner Twelfth and O.
