McCook. These house parties are constantly being invited to different towns in the state. Acquaintances are formed at the university among the resident undergraduates living here and elsewhere. The elsewhere are entertained by the former and they desiring to be hospitable to their intimate friends invite them to their homes in Omaha, Seward, Crete, McCook, Grand Island; Kearney, Plattsmouth and Beatrice. This marks the beginning of the era when the cultured people of the state will know each other and be known familiarly. It is hard to be provincial and local under such circumstances. And as the years pass and the university contains five thousand students coming and going from their homes and taking parts of Lincoln, Omaha and other towns with them, even the old feud between Lincoln and Omaha may lose significance. The other schools and colleges of the state are doing their part in the work of introduction and harmony.
