Is the Work the British Doctors are Doing in the Cor. 11th and N Streets, Sheldon Block, by Giving Their Services Free of Charge and thus Demonstrating Their Ability to Cure Many Maladies that are Called Incurable.

A staff of eminent physicians and surgeons from the British Medical Institute have, at the urgent solicitation of a large number of patients under their care in this country, established a permanent branch of the Institute in this city in the Sheldon block corner of 11th and N streets.

These eminent gentlemen have decided to give their services entirely free for three months (medicines excepted) to all invalids who call upon them for treatment between now and Dec. 6. These services consist not only for consultation, examination and advice, but also of all minor surgical operations.

The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted, and under no conditions will any charge whatever be made for any services rendered for three months to all who call before December 6th.

The doctors treat all forms of disease and deformities and guarantee a cure in every case they undertake. At the first interview a thorough examination is made, and if incurable, you are frankly and kindly told so; also advised against spending your money for useless treatment.

Male and female weakness, catarrh and catarrhal deafness, also rupture, goitre, cancer, all skin diseases, and all diseases of the rectum, are positively cured by their new treatment.

The chief associate surgeon of the Institute is in personal charge.

Office hours from 9 a. m. to 8 p. m. No Sunday hours.

SPECIAL NOTICE—If you cannot call, send stamp for question blank for home treatment.
