three, and keep the poor, much abused digestive organs constantly at work. Many a suffering devotee has acknowledged that her dyspepsia was caused by these added luncheons coming in mid-afternoon or late at night, or both. The Feast of Holidays held last week in a prominent New York city church was, it is said, a charming affair and was a novelty in church entertainments. On different tables appropriately appointed to represent the various holidays, many articles were for sale. At the New Year table laden with ice and snow, home made cakes were sold. Handkerchiefs and sachets were sold at Saint Valentine's table where flaming hearts held sway. At Saint Patrick's table harps and shamrocks divided the honors with home made fudge and other candies. At the white Easter table stationery was sold. At the Maypole the dolls and toys threw the children into ecstatic delight. At the Washington table George's portrait was on guard and flags, firecrackers and red, white and blue torpedoes were the decorations. Arbor day was illustrated by a flaxen haired little girl who sat in a huge basket surrounded by violets and carnations and distributed favors. At the Labor Day table useful articles, such as aprons and towels, were sold. Jack lanterns, nuts and lemonade characterized the Hallowe'en table, and the Christmas table needs no description. The entertainment netted a handsome sum.
