Those who suffer from germ troubles, and who do not use Liquozone, are wronging themselves. You will know how much when you try it. Most of these troubles are so unnecessary—so easily cured—it is wrong to let them continue.

What reason can one find to hesitate? A trial of Liquozone costs not a penny. We will gladly buy the first bottle for any new user, and pay the druggist ourselves for it. Won't you—if you need it—accept that gift?

Liquozone is not unknown now—not untried. It has cured millions of germ troubles—troubles that drugs can't cure. There is no neighborhood—no hamlet so remote—that has not instances of what Liquozone has done. The cured ones are everywhere; doubtless some of your friends are among them.

You will regret these days of waiting when you learn what Liquozone does. You will wish you had abandoned wrong methods and tried the right one sooner. Please ask about Liquozone today.

Not Medicine

Liquozone is not made, like medicine, by compounding acids and drugs; nor is there any alcohol in it. Its virtues are derived solely from gas, made in large part from the best oxygen producers. The process of making takes 14 days, and requires immense apparatus. At the end of two weeks, we get one cubic inch of Liquozone for each 1,250 cubic inches of gas used. The attainment of this product has, for more than twenty years, been the constant subject of scientific and chemical research.

The main result is, to get into a liquid, and thus into the blood, a powerful, yet harmless germicide. And the product is so helpful—so good for you under any condition—that even a well person feels its instant benefit.

This is the product which in the past two years has sprung into worldwide use in the treatment of germ dis-

eases. It is now used by the sick of nine nations; by physicians and hospitals everywhere. It is daily used in millions of homes in America.

Two Million Dollars

Have been spent to make Liquozone known. We have bought the first bottle and given it free to every sick one we learned of. The result is that one home in five, the country over, has some one whom Liquozone has cured. These homes are scattered everywhere. Your neighbors and friends live in some of them. If you will only ask what Liquozone does there are millions to tell you about it.

And we paid \$100,000 for the simple right to make Liquozone—the American rights. The rights in other countries have sold for proportionate sums. We mention this fact to indicate the recognized value of Liquozone. Men have never before paid such a price for any discovery used in the cure of sickness.

Before we bought Liquozone, we had it tested for years, through physicians and hospitals in this country and others. We had it employed in every stage of every germ disease; in thousands of the most difficult cases obtainable. For two years, in many a disease called incurable, we proved that Liquozone did what medicine could not do. That was the reason for its price.

How Liquozone Cures

The greatest value of Liquozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is a poison, and it can not be taken internally. For that reason, medicine is almost helpless in any germ disease.

Liquozone is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it can not kill. Yet it is not only harm-

less but of wonderful benefit—better than anything else in the world for you. No one is so well that he can not be helped by it.

The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter. To the human body Liquozone is exhilarating, vitalizing, purifying—the most needful, the most helpful thing possible. But to germs it is certain destruction; and these facts are true of nothing else in existence.

Germ Diseases

These are the known germ diseases; all due to germs or to the poisons which germs create. These are the diseases to which medicine does not apply, for drugs can not kill inside germs.

All that medicine can do for these troubles is to act as a tonic, aiding Nature to overcome the germs. But those results are indirect and uncertain, depending on the patient's condition. A cure is always doubtful when drugs are used, and some of these diseases medicine never cures.

Liquozone alone can destroy the cause of these troubles. It goes wherever the blood goes, so that no germ can escape it. The results are almost inevitable. Diseases which have resisted medicine for years yield at once to Liquozone. "Incurable" diseases are cured by it. In any stage of any disease in this list the results are so certain that we will gladly send to any patient who asks it an absolute guaranty.
