

An Appeal

To be Fair to Yourself---To Learn by a Test what Liquozone Means to You. The First Bottle is Free.

To you who are sick and are waiting--this appeal is to you. An appeal to be fair with yourself.

Don't think that the help which you need is impossible. Please, for a moment, lay your doubts aside. Send us this coupon and see the good it may bring you. Let us buy you a bottle of Liquozone to try.

The test is free; and, if it succeeds, think what it means to you. And do you suppose we would make this offer if the results were not likely to be satisfactory?

Note what this product has done.

Two years ago, Liquozone was known to but few. Now more than 11,000,000 bottles have been used. Today there are countless cured ones--scattered over half the world--telling what they owe to Liquozone.

We ask you to do what they did. Let this product itself prove its power. Please try it at our expense.

What Liquozone Is

Liquozone is a tonic-germicide, the virtues of which are derived from gas alone. The formula is sent to each user.

The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry their virtues into the system.

The gases employed are vitalizing, and the product which results is a tonic. The gases are germicidal, and the product they create is a harmless germicide. No alcohol, no opiates, no dangerous drugs are employed in it. Nothing whatever but helpful gases, and the water used to absorb them.

The invention of Liquozone meant finding a way to utilize gases in the treatment of germ diseases. And

millions know from experience something of what that discovery means to humanity.

Kills Disease Germs

The main value of Liquozone lies in the fact that it is deadly to germs, yet harmless to living tissues.

That is not true of common germicides. They are poisons when taken internally. That is why medicine has proved so helpless in dealing with germ diseases. The usual germ-killing drugs can not be taken in effective doses internally.

Liquozone is harmless. That fact has been repeatedly proved by scientific tests. Not only harmless; it is good for you. Its effects are exhilarating, vitalizing and purifying. Its benefit is often apparent from the very first dose. Yet contact with Liquozone destroys every form of disease germ that has yet been discovered.

Can you not see why this product may do what other remedies fail to accomplish?

Germ Diseases

In the past few years, scores of diseases have been traced to germ attacks. These include most of our minor ills, and most of our serious sickness.

A few years ago all these diseases were attributed to other causes. The remedies made for them were based on theories which have since been abandoned. Is it any wonder that those old-time remedies so often prove ineffective?

Germ diseases call for Liquozone. In any such disease--no matter how difficult--we send to each user a guarantee, permitting two months' treatment at our financial risk. If the results are unsatisfactory, the patient's own druggist returns every penny paid. We do this so that none who need this help may find reason to go without it.

We have sent out many thousands of these guarantees, yet less than five in each thousand have been returned for redemption. Can you not see that a remedy so wonderfully effective in general is likely to be effective with you?

Where It Applies

These are the diseases in which Liquozone has been most widely employed. In these diseases, more than any others, it has earned its wide reputation. Not all of these are

known germ diseases. Authorities differ on some of them. But, according to our experience, these are the diseases to which Liquozone best applies.

In each of these diseases we supply the first bottle free. And in all--no matter how difficult--we offer each user a two months' further test without the risk of a penny.
