A LIE OUT SOMEWHERE

There is a monstrous lie out somewhere in relation to the protective tariff.

Senator Nathan B. Scott of Wheeling, W. Va., has exposed this fact, and in the exposition of it he has been ably seconded by Senators Smoot and Hale, as the democrat has already pointed out.

We have it from them, as we have stated before, that the protective tariff does not operate in favor of the manufacturer, but exclusively in the interest of the retail dealer.

We have it from them that under the protective tariff prices for manufactured products are constantly growing cheaper and that after awhile, if the system of protection is continued, manufacturers will find themselves under the necessity not only of selling their products to retailers at a loss, but paying them a bonus to come and take them away!

Let us see what this testimony of eminent republicans means.

It means a complete reversal of the republican party's history in regard to the purposes of the protective tariff.

It means that throughout the last presidential campaign Mr. Taft, if we are to believe Senators Scott, Smoot and Hale, went before the country with a falsehood upon his lips.

It means that the protective tariff, instead of encouraging manufacturers and "insuring them a reasonable profit," does not do anything of the kind.

It means that the protective tariff does not insure manufacturers sufficient profit to enable them to pay living wages to workingmen.

It means that the republican party's contention that it favors protection for American manufacturers to the end that they may make such profits that they shall be enabled to pay a high rate of wages is a lie out of the whole cloth.

If not all this, then it means that Senators Scott, Smoot and Hale are traitors to the cause of protection.

Who is Senator Scott of Wheeling, W. Va.?

He is a millionaire glass manufacturer.

He is standing up in the United States senate and fighting like a mad bull for a perpetuation of the protective tariff.

Why?

Because in the end the protective tariff is going to force the American glass manufacturers to pay retail dealers to come and take their products off their hands and get paid for doing so!

Think of it!

Millionaire Scott and other glass manufacturers are steadily and surely being brought to the verge of ruin because the protective tariff has a tendency to compel them to manufacture at a loss!

And that is why they are so tremendously in earnest in their support of the policy of protection.

Let Senator Scott explain this remarkable situation.—The Johnstown Democrat.

DOLLIVER PUZZLED

"This debate in the senate the other day must remind you of your old days in the house, doesn't it?" asked a friend of Senator Dolliver.

"Yes," remarked Dolliver. "We used to have some great times there. The house is an interesting place. One never knows there when he's going to run foul of some bright chap who'll bowl him over. I remember one time I was making a speech there on the tariff. I was painting the glories of protection. I was contrasting the pitiful conditions of the poor in Europe with the people who work in this country. I was telling about the people who came from Europe to my district,

how they prospered and often sent back something out of their savings to their parents or other relatives in the depths of poverty in the old country. I described how I had often seen them weep as they thought of the grinding conditions under which their loved ones struggled back in the fatherland. Suddenly Caruth of Kentucky arose in his place, looked solemnly over his glasses at the speaker, and in his high-pitched, peculiar voice, said: "Mr. Speaker, what did the gen-

Aches

of some kind are the heritage of nearly every one, from the infant and the colic, the middle aged and the distressing, miserable headaches, to the aged with nervous, muscular and rheumatic pains.

A remedy to relieve in all cases must be founded on the right principle, and that accounts for the wonderful success of

Dr. Miles' Anti-Pain Pills

They never fail to cure all cases of pain, because they treat the Pain Source—the nerves. By soothing the irritated nerves they lessen the tension, build up the strength, set the blood coursing through the veins, and thus allay all pain.

"Periodic headache, that unfitted me for business several days at a time, has been my life experience. I found first relief in Dr. Miles' Anti-Pain Pills and since then I invariably ward them off by taking a pill when I feel them coming on."

E. M. MOOBERRY, Windsor, Ill.

The first package will benefit, if not, the druggist will return your money. 25 doses, 25 cents. Never sold in bulk.

Subscribers' Advertising Dept.

A great many of our subscribers have been quick to realize the handsome profit they can make by advertising in our Little Advertisement Department. We started this department of little advertisements expressly for our subscribers, so they could advertise at the very low price of 6 cents per word, their farms, homes, lands, surplus live stock, poultry, eggs, bees, birds, pet stock, seeds, plants, nursery stock, produce, implements they had outgrown but which were still useful, etc. It didn't take our big army of subscribers long to find out that it pays to advertise in The Commoner's Subscribers' Advertising Department. The rate of six cents per word is relatively much smaller than the cent a word rate charged by papers of 1,000 circulation. The Commoner has a guaranteed circulation of 145,000, so the actual cost to you is about 1 cent per word for 24,000 circulation. Some of our subscribers now, not only advertise their miscellaneous wants, but have built up a regular mail order business from these small advertisements, and raise stock, etc., on purpose for their customers secured by advertising. A good many sell goods and articles of their own make, or act as agents for manufacturers.

You can make money and build up a nice little business of your own by using this department to place your proposition before The Commoner's big army of readers. If you have anything to buy or sell it will pay you to use this department at all times.

Send us a trial order. Write just as you'd talk. Never mind the grammar. Count name, postoffice, and numbers as one word each. Multiply by 6 cents per word, and send your ad. and money order direct to The Commoner, Lincoln, Neb.

NORTHERN VIRGINIA FARMS AND country homes near Washington. Loudoun and Fairfax county stock farms a specialty. A. H. Buell, Real Estate Broker, Herndon, Fairfax Co., Va. Send for new spring list.
