

Faint Spells

Are very often attributed to biliousness, and the stomach is treated to cathartics.

That's wrong. Faint spells are often accompanied by biliousness, but you will also notice shortness of breath, asthmatic breathing, oppressed feeling in chest, weak or hungry spells, which are all early symptoms of heart weakness.

Don't make the mistake of treating the stomach when the heart is the source of the trouble.

Dr Miles' New Heart Cure

will strengthen the nerves and muscles of the heart, and the fainting spells, together with all other heart troubles, will disappear.

"Four years ago I was very low with heart trouble, could hardly walk. One day I had a fainting spell, and thought I would die. Soon after I began using Dr. Miles' Heart Cure, and after taking three bottles I feel that I am cured."—MRS. EFFIE CLOUGH, Elsworth Falls, Maine.

The first bottle will benefit, if not, the druggist will return your money.
