FREE TO THE RUPTURED TRIAL OF PLAPAO

Awarded Gold Medal and Diploma Over All Competitors. International Exposition, Rome, and Grand Prix, Paris.

STUART'S PLAPAO-PADS are a wonderful treatment for rupture, curing as they do the worst forms in the privacy of the home without hindrance from work and at slight expense.

RUPTURE CURED

by STUART'S PLAPAO-PADS means that you can throw away the painful truss altogether, as the Plapao-Pads are made to cure rupture and not simply to hold it; but as they are made self-adhesive, and when adhering closely to the body slipping is impossible, therefore, they are also an important factor in retaining rupture that cannot be held by a truss. NO STRAPS, BUCKLES OR SPRINGS. Soft as Velvet—Easy to Apply. Plapao Laboratories, Block 54 St. Louis, Mo., is sending FREE trial Plapao to all who write.

John B. DeHaven, judge of the United States court for the northern district of California, died at his home near Maple, Cal.

A warrant for the arrest of Gen. Daniel E. Sickles, has been issued by a New York court. He is charged with appropriating for his own use \$23,476 from the funds of the New

York state monument commission, of which he was a member. General Sickles is eighty seven years old. The New York sheriff announced that he hoped that a friend would come to the relief of General Sickles.

Judge W. M. Kavanaugh, of Little Rock, now national committeeman of Arkansas, was elected by the Arkansas legislature to the short term ending March 4, 1913. He succeeds J. M. Heissell, whom the governor appointed to succeed Jeff Davis. On March 4th Joseph T. Robinson will begin the six-year term as senator.

The Nevada legislature elected T. Pitman to the United States senate. South Carolina re-elected Senator Tillman. The Texas legislature elected Morris Sheppard both for the short and the long term to succeed Senator Bailey. For the short term Sheppard defeated R. M. Johnston, whom the governor had appointed.

The corn exposition opened at Columbia, S. C., with exhibits from twenty-seven states.

The New York Herald says: John D. Rockefeller, jr., in the first authorized statement concerning the origin, work and projects of the bureau of social hygiene which he founded announced that it would seek to find a method of dealing with the social evil in New York City and to ascertain the conditions responsible for vice. Thus he and his associates without any show of sensationalism and hysteria address themselves to a world old problem in the spirit of science and humanity. They hope to find a way of dealing with it which will be practical and at the same time command the support of public opinion. To this gigantic task they have invoked the aid of skilled investigators with experience of the laboratory and of sociological experts. Considerable sums have already been contributed by Mr. Rockefeller for this work, in which he became intensely interested in 1910 when he was the foreman of the grand jury of New York county which investigated the white slave traffic. At that time he made an offer of \$25,000 to the city for use in investigations.

The Kansas legislature elected William H. Thompson, of Garden City, a democrat, to succeed Charles Curtis in the United States senate.

A Trenton, N. J., dispatch to the Philadelphia North American says: Probably the last large fee for New Jersey from gigantic corporations came in the office of the secretary of state, when the International Harvester corporation was incorporated, with a capitalization of \$70,000,000.

Promoters of this wing of the harvester trust—for that is what it is—probably realized that in order to get advantage of the exceptionally generous corporation acts of this state it would have to get in now or not at all, for in a few weeks the seven corporation bills, introduced in the senate at the instance of Governor Wilson, will probably become laws, and then great combinations of money will not be able to arrange to carry on any kind of business and to promote holding companies under the laws of this state. For the incorporation the state received a fee of \$14,000.

The fact that the International Harvester corporation takes ad-

This Washer Must Pay for Itself.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse. But I didn't know anything about horses much. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right, but pay me first, and I'll give you back your money if the horse isn't all right."

Well, I didn't like that. I was afraid the horse was not "all right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse although I wanted it badly. Now this set me thinking.

You see I make Washing Machines—the "1900 Gravity" Washer.

And I said to myself, lots of people may think about my Washing Machine as I thought about the horse, and about the man who owned it.

But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way.

So, I thought I, it is only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now, I know what our "1900 Gravity" Washer will do. I know it will wash the clothes, without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in six minutes. I know no other machine ever invented can do that, without wearing out the clothes.

Our "1900 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it doesn't wear the clothes, fray the edges nor break buttons the way all other machines do.

It just drives soapy water clear through the fibres of the clothes like a force pump might.

So, said I to myself, I will do with my "1900 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "1900 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight too. Surely that is fair enough, isn't it?

Doesn't it prove that the "1900 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save its whole cost in a few months, in wear and tear on the clothes alone. And then it will save 50 cents to 75 cents a week over that in washwoman's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 50 cents a week, send me 50 cents a week 'till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Drop me a line to-day, and let me send you a book about the "1900 Gravity" Washer that washes clothes in 6 minutes.

Glasses Absolutely Free

Don't Send Me One Cent

when you answer this announcement, as I am going to mail you a brand new pair of my wonderful "Perfect Vision" glasses (known in the spectacle business as "lenses") absolutely free of charge as an advertisement.

As soon as you get them I want you to put them on your eyes, sit down in front of the open hearth one of these cold wintry nights, and you'll be agreeably surprised to discover that you can again read the very finest print in your bible with them on even by the dim firelight; you'll find that you can again thread the smallest-eyed needle you can lay your hands on, and do the finest kind of embroidery and crocheting with them on, and do it all night long, if you like, without any headaches or eye-pains, and with as much ease and comfort as you ever did in your life.

Or, if you're a sportsman and like to go out hunting occasionally, just shoulder your gun and go out into the woods some early morning when the haze is yet in the air, and you'll be greatly delighted when you drop the smallest bird off the tallest tree-top at the very first shot sure, with the help of these wonderful "Perfect Vision" glasses of mine. And in the evening, when the shadows are gathering in the twilight, you'll easily distinguish a horse from a cow out in the pasture at the greatest distance and as far as your eye can reach with them on—and this even if your eyes are so very weak now that you cannot even read the largest headlines in this paper.

Now Don't Take My Word For It

but send for a pair at once and try them out yourself for reading, sewing, hunting, driving, indoors, outdoors, anywhere and everywhere, anyway and every way. Then after a thorough tryout, if you find that every word I have said about them is as honest and as true as gospel, and if they really have restored to you the absolute perfect eyesight of your early youth, you can keep them forever without one cent of pay, and

Just Do Me A Good Turn

by showing them around to your friends and neighbors, and speak a good word for them whenever you have the chance. Won't you help me introduce my wonderful "Perfect Vision" glasses in your locality on this easy, simple condition?

If you are a genuine, bona-fide spectacle-wearer (no children need apply) and want to do me this favor, write your name, address and age on the below four-dollar coupon at once, and this will entitle you to a pair of my famous "Perfect Vision" glasses absolutely free of charge as an advertisement.
