Throw Away Your Eyeglasses

HOW TO SAVE THE EYES IS THE TITLE OF A Free Book

SIMPLE HOME TREATMENT DOES IT

At last the good news can be published. It is predicted that within a few years eyeglasses and spectacles will be so scarce that they will be regarded as curiosities.

Throughout the civilized world there has, for several years, been a recognized movement by educated medical men, particularly eye experts, toward treating sore, weak or strained eyes rationally. The old way was to fit a pair of glasses as soon as the eyes were found to be strained. Those glasses were nothing better than crutches. They never overcame the trouble, but merely gave a little relief while being worn, and they made the eyes gradually weaker. Every wearer of eyeglasses knows that he might as well expect to cure rheumatism by leaning upon a walking stick!

The great masses of sufferers from eye-strain and other curable optic disorders have been misled by those who were making fortunes out of eyeglasses and spectacles.

Save Your Eyes—Get Rid of Glasses

Dr. John L. Corish, an able New York physician of long experience, has come forward with the edict that eyeglasses must go. Intelligent people everywhere are indorsing him. The Doctor says the ancients never disfigured their facial beauty with goggles. They employed certain methods which have recently been brought to the light of modern science. Dr. Corish has written a marvelous book entitled "How to Save the Eyes," which tells how they may be benefited, in many cases instantly. There is an easy home treatment which is just as simple as it is effective, and it is fully explained in this wonderful book, which will be sent free to any one. A postal card will bring it to your very door. This book tells you why eyeglasses are needless and how they may be put aside forever. When you have taken advantage of the information obtained in this book you may be able to throw your glasses away and should possess healthy, beautiful, soulfully expressive, magnetic eyes that indicate the true character and win confidence.

BAD EYES BRING BAD HEALTH

Dr. Corish goes further. He asserts that eye-strain is the main cause of headaches, nervousness, irritability, neurasthenia, brain fag, sleeplessness, stomach disorders, despondency and many other disorders. Leading oculists of the world confirm this and say that a vast amount of physical and mental misery is due to the influence of eye-strain upon the nerves and brain cells. When eye-strain is overcome these ailments usually disappear as if by magic.

FREE TO YOU

The Okla method, which is fully explained in Dr. Corish's marvelous book, is the method which is directed at making your eyes normal and saving them from the disfigurement of these needless, unpleasant glass windows. If you wear glasses or feel that you should be wearing them, or if you are troubled with headache in the forehead or nervousness when your eyes are tired, write today to Okola Laboratory, Dept. 365E, Rochester, N. Y., and ask them to send you, postage prepaid, free of all charge, the book entitled "How to Save the Eyes," and you will never regret the step taken.

right to receive indemnity, exclude the undeserving, generally confine the injury indemnified to the pecuniary loss only, and so restrict the indemnity that the burden of the state treasury will not be oppressive. In Austria, France, Portugal and Geneva an indemnity is granted for the injury suffered through unjust conviction and imprisonment where on retrial there is acquittal. Indemnification for both acquittal on appeal after conviction and for detention pending trial followed by acquittal or discharge is provided for in Sweden, Norway, Denmark, Germany, Hungary, Berne, Fribourg, Neufachatel, Pasle and Tessin. The award of an indemnity is compulsory in case of acquittal after a conviction—that is, a right of action is given to the individual—in Germany, Norway, Neufachatel and Basle. In all these countries a great advance has been made in doing justice to those who have been the victims of the mistakes made by the state in the administration of criminal justice. Adequate legislation is required by the United States and by all the states of the country. A safe rule to follow is this, that while we do justice we must also show mercy.

THE BALTIMORE RECORD

The following editorial appeared in the Sioux City (Ia.) Journal: Powerful influences are said to be at work to persuade the president-elect that he doesn't owe Mr. Bryan anything. The theory is that Mr. Bryan was working at Baltimore for himself, and that he hoped to bring about a situation that would permit him to slip in and seize the nomination. It is denied that what happened to Mr. Clark, a happening projected by Mr. Bryan, was in the interest of Mr. Wilson. It is alleged that the Bryan program also included the undoing of the governor of New Jersey. One thing that adds to the plausibility of the story is that it is so natural in politics. The fact remains, however, that Mr. Bryan's floor work did result in the nomination of Woodrow Wilson. It is hardly presumable that Mr. Wilson will find himself with sufficient time to dig into every man's motives.

The Baltimore record on its face suggests that Mr. Bryan did not care to be subordinated to Wall street. He wanted his leadership to dominate; and he did not want it said that is the time Bryan got it in the neck. Serious injuries to Mr. Bryan's neck would put him out of business, and he feels that at his time of life he ought not to retire. It appears at this distance that what happened to Speaker Clark was incidental, and that in a way it was a question whether Mr. Bryan should be knocked out in order that Speaker Clark might win. Possibly the speaker ought to look at the matter in this light and make up with Mr. Bryan.

For another thing, it must be agreed that Mr. Bryan in what he did at Baltimore served the democratic party mightily. During that struggle, it must be remembered, "Pop was praying for Clark," and it would be foolish to deny that the colonel knew what he was praying about. Roosevelt expected proof out of Baltimore that the democratic party had been controlled by the enemies of the people, and Mr. Bryan got in enough heat to sour the game on the colonel's hands. Mr. Bryan performed a real service, and the people know it.

It is no more than recognition of the intelligence of the president-elect to say he knows it, and that he knows the people know it.

Handy Sewing Awl

A Perfect Device for Sewing Any Heavy Material

With this Awl you can mend harness, shoes, tents, awnings and pulley belts, bind books and magazines, sew or mend carpets, saddles, suitcases, or any heavy material.

The SPEEDY STITCHER is the latest invention and the most effective of anything in the form of an Automatic Sewing Awl ever offered for the money. Its simplicity makes it a thoroughly practical tool for any and all kinds of repair work, even in the hands of the most unskilled.

The SPEEDY STITCHER is provided with a set of diamond-pointed grooved needles, including our special needle for tapping shoes, which is an entirely new invention. It also contains a large bobbin from which the thread feeds, all of which are enclosed inside the handle out of the way. This Awl has a tension which enables you to tighten your stitch, and it can be used with or without the bobbin, which saves refilling the bobbin when you have a lot of work to do. These valuable features you will not find in any other \$1.00 Awl. No wrench or screw driver is required to remove the bobbin or tighten the needle in chuck, as is necessary in other makes.

The Awl is convenient to carry—always ready to mend a rip or a tear—it is a tool no practical man can afford to be without, and it is a tool that will save dollars in every home. New needles can be secured at any time. We will send this Awl (together with complete instructions) to any address, postpaid, on receipt of \$1, a bill or money order.
