

# These Eight Choice, Hardy, Everblooming Roses for You

## Sent Positively Without Cost Under the Remarkable Special Offer Given Terms of the Below

To every reader of The Commoner who loves beautiful flowers, we want to deliver this entire collection of eight Choice Hardy Everblooming Rose Bushes, positively without cost and prepaid. Each is of a different color and variety and with ordinary care will bloom the first season planted. They are the kind that bloom every month of the growing season, producing great masses of large beautiful flowers, exquisite in form, color and delicious perfume. They are strong, healthy plants, guaranteed to reach you in healthy growing condition; special printed directions on their planting and care is enclosed with each collection. Unless you request immediate delivery when ordering, the rose bushes will not be sent until proper time to plant in your locality. Extreme early or late spring would vary this five to ten days, so do not be alarmed if plants are not received the first warm days. Don't miss this splendid opportunity to have Eight of the finest Roses grown, blooming in your garden this summer. Read our generous offer; send your order today. Do Not Delay. THE FOLLOWING IS A DESCRIPTION OF THIS FINE COLLECTION

### HELEN GOULD

This is the most valuable and satisfactory red rose for general planting ever introduced. It is extremely hardy and a remarkably vigorous grower, producing long, strong shoots from the roots the entire summer, each shoot bearing a magnificent flower. The bush is of fine shape, covered with large, bright green foliage and the flowers are held up well on long stiff stems. The long pointed buds are warm rosy crimson beautifully shaded and when expanded are immense in size, full and double.

### KAISERIN AUGUSTA VICTORIA

This wonderful rose is indeed a crowning masterpiece and is hailed by flower lovers everywhere as the greatest rose creation of modern times. With a hardy, vigorous constitution, growing to perfection in almost any soil or situation, it has the most magnificent foliage that is possessed by any variety. It is a tremendous grower and blooms continuously, producing immense deep double grandly formed flowers on long stiff stems; their beauty is nothing short of superb from bud to open flower. It is practically impossible to describe the delicate tints of rich creamy white slightly lemon tinted near the center, a color effect both entirely new and distinct. We say without fear of contradiction that Kaiserin is one of the best garden roses for general planting in the world and will outrank in popularity all others because of its superior merit.

### ETOILE DE LYON

Grace of form, charm of color and vigor of growth are three characteristics which make this one of the finest roses ever offered. To produce a yellow rose that would fill all the requirements of a perfect hardy everblooming has taken years of expensive experimenting and hard work, but the result is worth far more than the effort since it is Etoile De Lyon. It is a fine, strong grower, forming a stout hardy bush and producing a profusion of glorious bloom on long stems all summer. The flowers are beautifully formed, large, full and double; the texture being very thick and lasting. In color, it is a deep golden yellow, marvelously rich and pure, with exquisite fragrance.

### MAMAN COCHET

A rose to excite the envy of everyone. It is one of the most abundant bloomers of all roses, the entire bush quite often being hidden by great masses of beautiful flowers. It is excellent for bedding or decorative purposes, growing vigorously, rapidly producing a handsome shapely bush, densely covered with deep green foliage, practically free from attacks of disease and insects which destroy so many of our really good roses. It is perfectly hardy in all sections, invariably producing masses of flowers in amazing profusion during the whole of the growing season; in fact, it is always in bloom. The buds are large, elegantly pointed, of artistic formation, while the open flower is exquisite, presenting the most fascinating coloring of a magnificent silvery pink, touched at the center with golden-yellow.

### GRUSS AN TEPLITZ

For intense and dazzling color, there is no other rose to compare with this splendid kind and the rose-loving public is to be congratulated upon its introduction. It is a strong and sturdy grower, often attaining a height of four to five feet in a single season, forming a most shapely bush with large handsome foliage, practically free from attacks of insects and disease. It is perfectly hardy in all sections, always producing masses of flowers in amazing profusion during the whole of the growing season; in fact, it is always in bloom. The flowers are large and handsome, moderately double, of splendid substance and the color is fiery crimson, shaded with a dark velvety sheen, a combination found in no other rose. The fragrance of Gruss An Teplitz is unexcelled by that of any other variety under cultivation and is one of the finest and most splendid ever produced.

### MAIDEN'S BLUSH

An indispensable rose for bedding or decorative purposes just recently introduced, but fast gaining great popularity by its wondrous beauty. It is very vigorous and healthy, hardy enough to withstand all climates and quickly forming a handsome shapely bush the first season planted. Its culture is one of the very easiest as it will thrive in any ordinary garden soil, clothing itself with beautiful ornamental foliage and producing in amazing profusion large double flowers all through the growing season. The delicate blending of colors is most indescribable, rose tints in the center of flower, gradually shading into pale blush and creamy white.

### MD ABEL CHATENAY

This splendid rose is one of the very best of its color—rosy, carmine with darker shade. Its wonderfully beautiful flowers, which are full, deep and double excites the admiration of everyone beholding it and it has so many other good qualities that we are certain it will find a place in the garden of every flower-lover. A very hardy rose, Chatenay is a strong vigorous grower and free bloomer. The fine symmetrical form and elegant rich foliage combined with the great abundance of magnificent bright flowers it produces, makes it very ornamental and in every way, an ideal garden rose.

### EVERBLOOMING CRIMSON RAMBLER

The advent of the famous Crimson Rambler produced most startling results, the only possible flaw to be found was its habit of blooming but once during the season. So for years, it has been the ambition of every rose grower to produce an everblooming type and this has now been accomplished in the production of this variety. The plant is of very vigorous growth, making shoots from eight to ten feet during the season. It is magnificent in bush form, completely covering itself with bright green and glossy foliage. The flowers are produced in great pyramidal clusters, the individual flowers measuring from one to two inches in diameter. The color is the brightest crimson. And best of all, it blooms from early spring until along late in the autumn, proving a constant source of pleasure and delight.
