Mr. Mann asked the rules committee to draw a broad resolution. "While we are going into this national association of manufacturers," he said, "let's investigate the other side of this matter—the labor end. Let us find out about the temperance organizations, the labor unions and the others who have been interested in legislation before this house."

PACIFIC MERGER PLAN ENDED Following is an Associated Press dispatch: St. Paul, June 30 .-

Federal Judges Wallace H. Sanborn, William C. Hook and Walter I Smith, sitting as the district court of the United States for the district of Utah, late today approved the plan agreed upon by Attorney General McReynolds and attorneys for the Union Pacific railroad and the famous Union Pacific-Southern Pacific merger, known as the great Harriman combine, practically came to an end.

The decree signed today will become effective with its filing in the federal court at Salt Lake City, Utah, which probably will take place next Wednesday or Thursday.

With the handing down of the final decree years of litigation came to an end, the first suit of the govern to dissolve the merger having been filed at Salt Lake City in 1908.

The decision today came as a surprise. There was a brief hearing this morning, at which the government was represented by C. Carroll Todd, special assistant to the attorney general, and the road by N. H. Loomis and H. W. Clarke. Then the court took the case under advisethe respective attorneys to question them further concerning the plan, but there was no hint that a decree would be given.

Shortly before 4 o'clock Judge Sanborn, who presided, called in the attorneys and announced that the court had decided to enter a final decree, approving the plan as presented by the attorney general and the road's counsel, with practically

By its decision the court disre-

ing today as unfair to the road. The attorney general also had asked in this connection that there be publication of the plan as in the American Tobacco company case, calling the attention of interested parties so that objection might be made, but this also was overruled by

the court. "We deem a decree of dissolution more necessary at present than any other action," said Judge Sanborn, after announcing the decree.

The government, however, in the plan approved, expressly stipulates that should any illegal conditions arise from the exchange of stock, either under existing or future laws or future interpretation by the courts of present statutes, the government
