

What Makes a Cream Separator Valuable---

*Clean Skimming
Light Running
Easy Cleaning
Long Life
Few Repairs*

Everybody who ever tried it knows that the

BEATRICE Cream Separator

**Beatrice Centrifugal
Washing Device**

Washes, sterilizes and dries all the discs in less than two minutes.

The greatest labor saving improvement since the invention of the hand cream separator.

Supplied absolutely free with every

Beatrice Cream Separator

is distinguished for these qualities. It gets all the cream down to the last trace from either warm or cold milk, and you can wash the separator bowl in less than two minutes. Don't you want that kind of a separator?

You wash, sterilize and dry the discs all as one piece---you don't have to take them apart to wash and dry separately.

And the cost is an important matter. You no longer have to pay \$110 to \$125 for a high grade cream separator. Here are the Beatrice prices:

600 lbs. capacity \$65 800 lbs. capacity \$75
1000 lbs. capacity \$85

The Beatrice is the one high grade separator that sells at a reasonable price. Write us for illustrated catalogue and name of dealer near you. Address nearest office.
