

(not touching the frames), let dry on, then polish off with a soft cloth; it will remove all dirt or smoke-film. The scouring paste, sold in cakes, is very good, and less trouble than using whiting and ammonia. Almost anything is better than soap and water, which usually leaves streaks and smears.

Sterilizing Milk

Milk is sterilized by heating to a temperature of 212 degrees Fahrenheit and keeping at that temperature for half an hour to one hour and a half. To remain sterilized, milk must be kept secure from contact with outside germs. To pasteurize milk, put the milk into glass fruit jars, adjust the covers, but do not screw them down; set the jars on a rack in a steam kettle, and fill the kettle with water to the height of the milk in the jar. Heat the water until the thermometer in the water registers 171 degrees Fahrenheit. The temperature of the milk will be several degrees lower. The kettle must be kept covered. Now remove the kettle to a place where the water will remain at this temperature; put two hot stove lids under the kettle, or remove to a table and throw over it a heavy comfortable, padded with cotton, as cotton wadding is a non-conductor of heat, and allow it to stand thus for half an hour. Now cool as quickly as possible, but begin the cooling process gradually, or the glass jars may break. Then when cold set away in a cool place. A double boiler may be used, but a steam kettle is more convenient for the use of the thermometer, and the glass jars are proper vessels in

which to store milk. If a double boiler be used, let it be a large one, so that the water in the bath may rise to a level of the milk.—Medical Magazine

For making vegetable fritters, the vegetables should first be cooked in salted water until tender, then cooled before going into the batter; the fat

must be very deep—about as for frying doughnuts; lard and beef fat, equal parts, is better than lard alone, for frying the fritters. Some cooks claim that mutton fat may be added when frying oyster fritters, as the taste of mutton fat does not seem to affect the delicacy of the bivalves, as it does other things.

"Queen of Panama"

The most popular song of the day—a great hit. Should be in the home of every music lover. Copies 25 cents each. Send at once as they are going fast. Sennet Publishing Co., Miami, Ariz.

Wanted Ideas Write for List of Inventions wanted by manufacturers and prizes offered for inventions. Our four books sent free. Patent secured or Fee Returned VICTOR J. EVANS & CO., Washington, D. C.

The Shovelcrats

The story tells how a construction camp tried to get rich by raising the price of shovels. The same thing, in a little different form, is attempted in every part of the United States every day. The story will amuse singletaxers and instruct those who are not. Price Ten Cents. TIMBEY'S BOOK STORE, Ashtabula, Ohio

"THE PICK OF THE PICKS"

They are antiseptic and peppermint flavored. A delicious toothpick. Let us send you a fifteen cent box for 10 cents in stamps. CUTTER TOWER CO. Established 1845. 184 Summer St., Boston, Mass.

GRAB'S FAMOUS SPECIALTIES

LABOR SAVING
Wipe Your Feet

Help keep the house clean—don't track mud, snow, dust, dirt through the house—get a **Grab's Foot Scraper** AUTOMATICALLY ADJUSTABLE. Fastens to doorstep or any place outside. Handsomely enameled—looks neat—can be rotated and swept under. The only device made which cleans bottoms and sides of shoe in one operation.
